CHAPTER THIRTY-SIX THE GRAND PLAN OF TOTAL GLOBAL ENSLAVEMENT FROM ENSLAVEMENT TO ARMAGEDDON

4379 (1974) Once the One World Government has its greedy clutches on Europe and the better part of all western countries' economies, including mideast oil supplies and African mineral reserves, things will take a decided turn for the worse! A quick list is about on this order, when the time comes:

4380 Russia needs manpower out the kazoo to develop what natural resources there are, mostly under Siberian snow and perma-ice! And Russia can't even raise proper hell, let alone sufficient food! Their economy is shot, as are all other communist/marxist governments, including Mexico and most countries in Central and South America for the same (socialist) reason.

4381 China has scads of man/woman power, most of which exists on the outermost edge of starvation! China trades Russia body power for firepower! China uses firepower and excess body power to take India's excess food supplies!

4382 Excess food supplies?

4383 In India? Are you kidding?!

4384 Nope. Each year nearly ten million cattle are permitted to starve to death because some Indian religions forbid killing cattle, although there is no law against letting them die of starvation, snake bite, or any other cause; just don't hurt that sacred cow! Eating it is totally unthinkable!

4385 China has no such regard for Ole' Jerse, and in fact finds beef quite tasty, not to mention nutritious! So do Russians!

4386 Bangladesh, India, Pakistan and Iran will be the last four dominoes in China's westward-ever-western communist domination as Thailand and Burma couldn't stop a case of diarrhea let alone communist infiltration!

4387 [INSERT: All the communists, all the fascists, and all the socialists (especially those disguised as Rhodes Scholars) are hell bent on being the LEADER of the One World Government in its Grand Plan of TOTAL Global Enslavement. China would like to lead that parade, as would all the kak-jews of the House of Judah and Babylonian Bastards of the Roman Empire under its own disguise as the Catholic Church at the Vatican. All the communists, fascists and socialists will have to take whatever part of the crumbs are available, even if by 'administration' rather than a shooting war of conquest. And thus may be the nature of eventual domination of Bangladesh, India, Pakistan and Iran by China, and all of it "energy driven" in the early stages.

4388 Paper, politics or powder and shot, enslavement under any disguise is STILL enslavement.]

4389 Now, all this isn't lost on the Bastards of Babylon and the House of Judah. They already know Syria and Iraq are in the Russian fold and will remain as dictatorships for years to come. Turkey couldn't whip dung with an egg beater even if she is hailed as a great power for a season during her years of 'usefulness' of monetary exchange toward total religious unification. (Yipes! Christian, Jew and Muslim in ONE religion?! Don't hold your breath; it's never going to happen because the leaders of all want the TOTAL leadership over all!) And with the fall of India, Iran and Iraq will last about as long as a politician's promise! They're already being 'westernized' in preparation for the shift.

4390 The goal?

4391 Arabian oil! To be sure, but that's not all! Oil isn't worth a damn unless you have something to use it for! Like transporting and processing the mineral wealth of Africa!

4392 Russian mineral reserves will be reserved insofar as possible; and China really doesn't have as much as predicted!

4393 But Africa does!

4394 Africa has virtually every mineral known to mankind, most of which remains untouched! The plan for Africa is well advanced, ultimately ending in a socialist cum communist government in South Africa and socialist cum marxist civil wars all over the rest of the continent as diversions from the coming One World Government takeover!

4395 And yes! The Babylonian Bastards want every god-damned speck of it! All the House of Judah wants is exactly the same thing, all of it! Money, wealth, power and slaves.

4396 In such dangerous times, time itself becomes a major commodity! With Chinese communists bearing down on mideast oil and mideast territory, that One World Government who couldn't lure Far Eastern, Southeast Asian or Asian religions into their global-controlling trap is now running out of time! If the mideast petroleum and territories fall into China's communist hands, all hope of global domination by Rome is suddenly out of the question! If it falls into Roman hands, the House of Judah's hope of global domination is equally flushed down the drain.

4397 Time is of the essence; and those know-too-much Akurians are keeping English-speaking nations from totally joining the One World Government fold!

4398 The socialists in those governments are spending as much money as they can extort from the taxpayers, manpower and logistics trying to 'convert' Great Resource Citizenry into permitting their 'governments' to join their One World Government, all of which are 'desperately-needed-in-the-middle-east-to-resist-those-westward-moving-communists' under the disguise of stealing the oil reserves there! Any pretense will do.

FROM ENSLAVEMENT TO ARMAGEDDON

4399 PETRONIUS: "You: take an ultimatum to the United States' President, United Kingdom's, Canada's and Australia's Prime Ministers, Either you will deliver your respective governments to the New World Order of One World Government by September 1st, next, or we, the god incarnates, personally guarantee that you and yours will be present at Ground Zeroes and we don't mean 'maybe'!

4400 "Wait for an answer."

4401 Now, just ask yourself, "Just what would have happened had that ultimatum been delivered to Lyndon Banes Johnson, Richard M. Nixon, Gerald R. Ford, James Earl Carter, Ronald Wilson Reagan, William Jefferson Clinton, either of the George Bushs and whatever slimebrained socialist puppet is next? Or perhaps George McGovern, Thomas P. "Tip" O'Neal, or Walter F. Mondale, John Forbes Kerry? And a few thousand others like Jane Fonda, Howard Hessman, Ed Asner, David Rockefeller, or Henry Kissinger?" Just to name a few!

4402 And how will those traitors and those to follow them deliver the nations?

4403 The process is far simpler than one would imagine. The Fail-Safe System not only has a Presidential stop capability, which prevents local Commanders from targeting or firing ICBMs and SAC bomber crews from arming their nuclear weapons:

4404 It has a total override capability! Denials to the contrary be damned!

4405 With the football and some other very special equipment, each and every missile, even those in submarines at sea, can be retargeted and launched by whoever has that override access and over local Commander's heads if necessary! The President is the only totally authorized access in this country! And there is a duplicate backup unit that stays with the Vice President.

4406 Unless you can show us "personalized incoming missile detectors" that also have "launch origination" capabilities, the citizens at Ground Zeroes will not even know their Death Warrants have been launched by their own 'government', and those who 'survive' will suspect the Russians or whoever is on our 'enemy' list at the moment.

4407 Nice people, these god-damned One World Government socialists!

4408 The Enslaver consists of several conspiratorial entities all working hand in hand to the exact, same ultimate end: The Grand Plan of TOTAL Global Enslavement!

4409 Once enslavement of the citizenry is achieved by respective governments – mainly through economic strangulation, which was attempted by contrived shortages beginning in 1973 and damned near succeeded since the effects are still with us – those 'government leaders' will join the One World Government just to survive intact!

4410 PETRONIUS: "(Oh, slime) . . . On-behalf-of-the-citizens . . . (slither)"

4411 While local 'government leaders' are bought-and-paid-for to economically strangle their own citizens, enforcing laws and legislations to guarantee and retain a TOTALLY DISARMED and PROGRAMMED IGNORANT generation; the One World Government is manipulating global affairs to do exactly the same thing to entire nations!

4412 That's why the various socialist moves to: Standardize everything to the metric system!

4413 Standardize all scientific computer languages!

4414 Standardize all international finance computer languages (the Kak-Jews love that one)!

4415 Standardize all highway and traffic signals!

4416 Standardize all radio and television communications signals!

4417 Standardize all international communications signals!

4418 Force an 'international language'!
4419 Force establishment of a Eurocom Parliament (with its own monetary system)!

4420 [INSERT: That's right. The Euro, predicted decades ago!]

4421 Force a One World 'court'!
4422 And under any guise whatsoever, deprive the citizen of accurate information!
4423 Deprive the citizen of local governmental control!
4424 Deprive the citizen of freedom of choice!
4425 Deprive the citizen of freedom, period!
4426 And most important of all: Deprive the citizen of the means to resist!
4427 You guessed it!
4428 Gun registration and gun control! Even if by 'permit'.
4429 But there's trouble in paradise. Not only are the current Catholic dominated One Worlders in a mad hog rush to control the entire planet, so are the communists under the House of Judah! Neither one have any qualms about using each other, or each other's tactics when it serves their purpose. But make no mistake: they are mortal enemies!
4430 And not on 'religious' or 'ideological' grounds! MONEY is one hell of a lot thicker than their politics, and money buys POWER! Especially POLITICAL POWER!
4431 It's just that they both want total global control! Money, Power, People, everything. And they both are equally hell-bent on having it! Regardless of how many they have to murder to get it!
4432 Permit an example of fact:
4433 Over the past several years since the end of World War II in 1945, Japan has become a major manufacturing power, not only on House of Judah via Rockefeller money and support, but also with various economic and trade agreements of which the Japanese-Australian agreement is classic. Without citing chapter and verse, that Japanese-Australian agreement has so entangled the Japanese and Australian economies that the failure of either economy ensures the failure of both!
4434 And now this god-damned Rockefeller Tri-Lateral Commission wants to force the United States, United Kingdom and Japan into exactly the same legal economic agreement! Why do you think there was so much hell raised over Alaskan oil and the Alaskan pipeline? Because that oil wasn't to remedy United States 'shortages'! It was to be traded to Japan! Reputedly, because it was cheaper than shipment to the east coast!
4435 And when the 'oil scam' didn't work, and the 'shortage scam' didn't work, then the bastards attempted to attain a stranglehold on strategic metals and minerals! Gold, silver, platinum, copper, and chromium among them! That scam is still in progress; that's why our pennies are now copper plated rather than solid copper as they have been for years, except 1943, when they were made of unplated zinc!
4436 That's also the real purposes behind all those 'resistances' against many pro-western African governments under the guise of 'apartheid', 'human rights', and any other damnable but grand-sounding socialist excuse! These tactics have no other purpose than to force those nations into an economic situation where the Catholic and Jew dominated One Worlders can gain a stranglehold control over both their internal political affairs and their strategic minerals right down to production and processing as well as any and all global markets!
4437 Although not mentioned herein, no strategic mineral is exempted from this global stranglehold attempt! Just because we haven't mentioned a specific metal or mineral doesn't mean for one damned instant that it isn't a target of this global scam attempt!
4438 And there you have it. At least in outline form. It would take tons of paper to document all the treasons and atrocities, but at least now you know the paint behind which the traitors hide!
4439 And what do you, the individual do about it?
4440 Just keep reading. We cover that too!
