

PAID FOR AND DISTRIBUTED BY COLONEL ROBERT F. CUNNINGHAM

We the People

You want **We the People's** vote? Then let's get a few points straight, clear and irrevocable at the outset.

To all Incumbents and re-tread wannabes, all newcomers take notice; recall is a viable option:

1. **We the People** are not – repeat, not – interested in your self-aggrandized agenda. You do not know better for us than we know for ourselves.
2. **We the People** already know the staff-originated lies, lies by omission, collusions and conspiracies of the opposition that are really no different than your own except the Bank Account numbers.
3. **We the People** already know your track record to date, specifically but not limited to: every whit of legislation you supported and voted for that took another pound of guts out of the Constitution, or handed governmental powers to a select Clique whose loyalty to the United States, as opposed to race or socialism is questionable at best.

Now that you are aware you are out in the open, let's discuss OUR terms. Not YOUR terms, OUR terms, as the will-not-be-silenced Voice of **We the People**.

Before you can even be considered for OUR vote, support or financial contribution, there is a shopping list:

First, that **We the People** see immediate legislation to restore the entire Constitution, starting with the Bill of Rights. **We the People** want it restored, **We the People** want it obeyed by all levels of government from top to bottom, and **We the People** want severe penalties for those who violate the Constitution in any manner, especially those on government payroll; the current collection of communists on the several Supreme Courts notwithstanding and included.

To Wit: What have you done, politically, legislatively or otherwise, to restore so much as one comma of the Constitution of the United States of American to **We the People**? Concealed-carry? That isn't restoration by any stretch of the imagination. It's government permission for a select few to exercise everybody's Second Amendment RIGHTS! Freedom of Religion? Religious leaders are being railroaded into prison via 'hate crimes' for standing their ground against immorality, primarily homosexuality, and even teaching the Book of Leviticus. Freedom of Speech? Anyone who disagrees with anything spewed like cess from a high-pressure sewer main out of illegal-President Barack H. Obama or any of his openly-communist puppets is instantly branded a bigot – and added to police constabulary rolls as a 'terrorist' or a 'person of interest' of 'potential terrorism.'

To Wit: The Patriot Act – which isn't – Uniting and Strengthening America by

Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act Of 2001 [**Public Law 107 – 56**]; The Military Commissions Act [**HR-6166**]; Blair Holt's Firearm Licensing and Record of Sale Act of 2009 [**HR-45**]; and Affordable Health Care for America Act [**HR-3962**]; are all unconstitutional, yet evidence of your resistance as such is also conspicuous by its absence. They are just a snowflake on the tip of this iceberg, and NO; **We the People** have not overlooked illegal-Secretary of State Hillary Rodham Clinton's agreement to disarm **We the People** of the United States with the United Nations 'small arms treaty' act of High Treason.

To Wit: What have you done, politically, legally, legislatively or otherwise, to require the documentation that illegal-President Barack H. Obama is in fact Constitutionally authorized to serve in the Office of President of the United States? Each and every other citizen of **We the People**, including you, must present proper identification upon request of any make-a-name-for-themselves police officer, that can, and often is, verified by legitimate Birth Certificates or acceptable verifiable birth registration: of which the Hawaiian Certification of Live Birth does not suffice. Is your lack of 'interest' in this situation because of your own Marxist collusions or the recognition the Nigerian Birth Certificate is irrefutable? The Indonesian school registration is equally irrefutable, but our Constitution doesn't require school records as positive refutation of natural born citizenship. And what have you done, politically, legally, legislatively or otherwise, on behalf of **We the People** with respect to illegal-President Barack H. Obama's many 'Czars' of whom NONE were duly elected nor ordained by **We the People** with the absolute power they exercise over the populace? Have you called illegal-President Barack H. Obama or any of them into account? restricted their Gestapo powers? required even a checks and balances approval of their appointments? made so much as a whimper against the illegal takeover of solvent financial institutions? Exposing that part of your 'public service' and non-adherence to your Oath of Office to protect and defend the Constitution will throw your transmission into sideways!

To Wit: What have you done, politically, legally, legislatively or otherwise on behalf of **We the People** to (a) stop the influx of illegal aliens, specifically but not limited to: Mexicans attempting to escape the Marxist economy of Mexico; (b) to enforce the service and prosecution of the well over 50,000 outstanding felony warrants for said illegal aliens; and (c) to restrict, limit and remove tax-funded support for said illegal aliens specifically but not limited to: welfare, driver's licenses, major medical treatment, education and social security benefits to which they have not contributed and are not entitled? This Nation has become a mass of war zones via said illegal aliens and their import of illegal narcotics, money laundering, rape and murder crime sprees that further detract from **We the People** at all levels of education and income.

Advice (1): more gun controls are not the answer. Were disarmament of intended and potential victims a viable solution, we should have scuttled the rest of our Navy following Pearl Harbor and beaten the Axis Powers instantly upon destruction of our armor, munitions and blanket discharge of our military. Your political correctness has been duly noted with respect thereto.

To Wit: Did you resist NAFTA? Have you proposed anything politically, legislatively or otherwise, to rescind even one word of that Economic Espionage against **We the People**? Or were you among those bribed by Bill Clinton to vote that Jobs and Financial Economic Espionage into law, just like those bribed over COMMUNIST RUN 'health care' by illegal-President Barack H. Obama ? And CAFTA, a baby NAFTA, is it in existence because you supported it, or because you didn't resist it? Prior to the above atrocities, how much legislation have you proposed, or supported, to void – or level – the trade 'agreements' between the United States, Japan and China? Is there any documentation showing your objection to the Tri-Lateral Commission that sold out **We the People's** labor and Intellectual Properties via such 'treaties?' If so, please produce its location. An extensive search has failed to discover so much as one word.

To Wit: What have you done, politically, legally, legislatively or otherwise, to require a full and open investigation into the activities of the Wall Street Bankers, Brokerages and Fund Managers with respect to criminal activities – which must include any and all governmental and/or Federal Reserve System, Securities and Exchange Commission and Internal Revenue Service collusions? And as a part of said investigation: what have you done, politically, legally, legislatively or otherwise, to require a full and open investigation into the activities of the aforesaid with respect to return of the losses incurred by the individual retirement accounts of ordinary working **We the People** who are now destitute? The criminal Executives are all enjoying their Golden Parachutes and Bonuses, but why is there no relief for the working **We the People** whose money was stolen and whose trust is still betrayed?

To Wit: What have you done, politically, legally, legislatively or otherwise, to secure the Nation and **We the People** against the impending North American Union – the attempt to communize and socialize the United States, Canada and Mexico into one morally degenerate, economically bereft, and globally defenseless 'alliance' over which **We the People** will have absolutely no authority whatsoever to even suggest alternatives to 'government' decisions with respect to determination of our ultimate destiny?

Advice (2): Support and implementation of the North American Union and 'corridor' highways are acts of High Treason and shall be considered as such by **We the People**. Since documentation of your resistance, outrage or otherwise, is conspicuous by its absence, the floor is yours to correct the omission.

Second, that **We the People** see immediate legislation at all levels of government abolishing all these past enacted socialisms which includes but is not limited to: government violation of the Constitutional Ex-Post Facto and Bill of Attainder guarantees and the restoration of Habeas Corpus as an absolute right even in times of war and crises.

Third, that **We the People** see immediate legislation abolishing the Federal Reserve System and all its false and illegal debts, making all government spending completely accountable to **We the People**. And the prosecution and incarceration of those in and out of government who have perpetrated this massive monetary extortion and swindle of the Nation's resources.

Fourth, that **We the People** see immediate legislation abolishing the Internal Revenue Service and all its false and illegal determinations, stripping any and all powers and authorities of relevant Internal Revenue Service statutes, legislations and determinations from the all the books of law of the land.

Fifth, that **We the People** see immediate legislation abolishing the Department of Homeland Security and all its intrusive damnations along with the elimination of all other such governmental departments until and operational minimum has been achieved.

Sixth, that **We the People** see immediate legislation abolishing the Central Intelligence Agency and all reputed information-gathering organizations attached thereto along with the outlawing of private sector contracting of intelligence gathering, specifically against lawful citizens of **We the People**; and immediate elimination of illegal narcotics manufacture, importing and money laundering for which the CIA has become famous throughout the world.

Seventh, that **We the People** see immediate legislation abolishing the Food and Drug Administration and deprivation of all its secret powers and collusions against the general health of the Nation which must include the elimination of any and all water poisoning via fluoridation, excess and non-removed chlorine; hybrid and genetically engineered food, livestock, grain, fruit, produce, seasoning, deliberately poisoned produce and livestock via insecticides and growth hormones; aspartame, fructose and high fructose syrup, all artificial sweeteners, hydrogenated and partially hydrogenated oils, artificial monosodium glutamate; methyl and wood alcohols, ethylenes in all categories, propyls and isopropyls used in mouthwashes, perfumes and cosmetics.

Eighth, that **We the People** see immediate legislation abolishing the Center for Disease Control and all its perpetuations of epidemics and pandemics upon the Nation and the world. Between the Center for Disease Control and the National Science Foundation, it's virtually impossible to determine which is the biggest liar and governmental scam office.

Ninth, that **We the People** see immediate legislation abolishing any and all foreign aid regardless of its disguise. In instances of natural disasters, we can provide any and all available assistance, but we do not need to take entire countries and their welfare-dependent populations to raise. Taxing our own poor to finance the foreign rich is not only an abomination, it is Economic Espionage against our own people.

Tenth, that **We the People** see immediate legislation abolishing the assignment of US Military Forces to any country other than required Embassy and Consulate Security and Attache' duties except in times of duly and Constitutionally Declared War; and an immediate end to private sector contracting of any and all food and logistics services, returning both to the military direct; and an immediate limitation imposed upon the Administration and restored to Congress with respect to extended military actions that amount to undeclared war.

Eleventh, that **We the People** see immediate legislation abolishing the socialist dumbing-down agenda in all educational institutions. Children can't read, write or count because they are not taught to read, write or count; and become perpetual welfare dependents, street punks, harlots, whoremongers and dope-addicts because they are taught to become perpetual welfare dependents, street punks, harlots, whoremongers and dope-addicts by our current educational systems.

Thirteenth, that **We the People** see immediate legislation abolishing perpetual excuses and exemptions for personal irresponsibility. And that includes any and all 'special' laws for homosexuals, social deviates, illegal aliens and any and all so-called 'hate' crimes whatsoever.

Fourteenth, that **We the People** see that you have read and fully understand any Bill before it even reaches the floor for a vote. **We the People** will consider any vote as verification that you have read the entire contents and both pro and con synopses for which we will hold you fully responsible.

Fifteenth, that **We the People** see an immediate shut-down of the Public Gold Mine, specifically but not limited to: any and all socialist endeavors whatsoever. You can find the lists in the Marxist Manifesto, of which we're sure you're quite familiar. Or didn't you read that either?

We the People want them all, and **We the People** want them all now!

We the People's complete list is much more extensive, but these will suffice for the beginning signs of your positions on these issues; and for all Incumbents, your repentance and restitution when and if **We the People** see them.

True, the socialists will scream, perpetual government leaches will whine, and the jellyfish will run; but **We the People** will not concede one iota nor one yoctometer of a yoctometer.

Remember, **We the People** are the rightful owners of this Nation and our decisions are final until **We the People** see just cause to change our minds. **We the People** are not affiliated with any given Party or Movement. **We the People** are of all political persuasions, except socialists of any stripe or manner, and are dedicated voters with long memories.
