

DESTRUCTION OF ENERGY
ENERGY vs FORCE
3 July 2011 - 1 Tamuz 5771

When you learned how to CREATE New ENERGY, turn it into Quarks, then into Electrons and Protons, and assemble them into your own Atom of Hydrogen: the whole world would tell you that what you are doing is impossible. And it is, except to the True and Righteous Akurians and those Seekers of Truth under our Righteous Power and Holy Authority. This week you are going to do the 'impossible' again. Instead of CREATING New ENERGY and MATTER, we're going to DESTROY both. And you're going to learn the difference between ENERGY, MATTER and FORCE. As always, it takes a very clear concentration and an exacting process. We're also going to learn how to create, manipulate and destroy ENERGY, MATTER and FORCE as easily as we dissolve or create a cloud. We're still dealing with ENERGY, so all practicing Akurians should be familiar with the general process.

The new word in this Instructional is "FORCE" as mentioned uncounted times in previous lessons, Sessions and Invocations. We know that FORCE is somewhere in the ENERGY/MATTER realm, and we normally consider it as closer to ENERGY than MATTER. And both presumptions are absolutely accurate: FORCE is DIRECTED ENERGY that is not formatted into MATTER; and indeed may never be! FORCE can remain as FORCE indefinitely. Get that: FORCE can be either DIRECTED – formatted – or unformatted ENERGY to become or *never* to become MATTER.

YES! We are going to do our number with ENERGY, MATTER and FORCE in this Instructional.

ARE THERE ANY QUESTIONS?

You are being taught *Fire Power* to be able to use it, both wisely and effectively: and both learning and application take practice. As I said last session: In due time each of you will be tested and tried concerning all these things, specifically Holy Law, our adherence to it and our Righteous Powers and Holy Authorities in accordance with it. Your test and trial will be at the hands of OWG Manipulators and their vested legal authorities *as a testimony against them*, and possibly result in your own immediate extermination unless you have Fire Power to the point that only the fools would dare come against you.

That all Akurians present, and all others who will experience this Instructional in the future should KNOW and understand: Making permanent changes in the Energy Spectrum of Creation is neither to be taken lightly nor passed over 'until there is a more convenient time' for you to acquire the Knowledge and Ability. The CREATION, DIRECTION and DESTRUCTION of ENERGY, MATTER and FORCE is an EARNED ability, like everything else in Creation.

A greater part of that training is advanced in this Instructional. As always, there are no trappings, equipment or regalia whatsoever required; and especially no 'belief' of any kind. You are learning Knowledge, YOU with a clear mind are all that's necessary.

You'll need BOTH hands free to fully participate in this Instructional, and Spiritual Arms and Hands will perform as well as bodily flesh and bone. And, you're going to have to be able to call the Great Elements and INSTALL them with one word: *the name of the Great Element*. One invoked word accomplishes both the calling forth identification and its installation into the void or spirit manifestation you will have made for it. In short, you are going to CALL and INSERT using only one word: *The NAME of the Great Element*.

ARE THERE ANY QUESTIONS?

Contrary to the 'findings' of the Scientific Community that reputedly deals only in hard facts; ENERGY, MATTER and FORCE *can* be created and destroyed. The book says "no," but the authors as

often as not, were threatened with Death at the hands of That Great Babylonian Harlot at Rome and Constantinople or bound to Oaths of Secrecy preventing any public disclosure of the Truth over many ages and generations.

Enter the Akurians. Akurians are KNOWERS, not 'believers' and we are not bound by any other than the Holy Oath which does not contain any secrecy provisions whatsoever, except as might be Ordered by appropriate Authority in the Chain of Command.

For those still faint of heart, remember we took a Category 5 Hurricane in the Atlantic, Hurricane **Earl**, that had been raging for weeks and turned it into a pusswilly summer squall in about 48 hours. We took a CAT-3 Typhoon **Beatriz**, in the Pacific off the coast of Mexico, and totally disposed of it over night. Within 48 hours it wasn't even a Low Pressure area. Again, the book says "no," but nobody asked the Akurians before they wrote that damned 'book' nor did they 'believe enough' according to their respective 'religions' to be able to effect even a steering wind to move, redirect or delay ANY storm whatsoever: and they still can't.

The assumption that neither ENERGY nor MATTER (mass) can be created or destroyed is totally bogus, especially to the True and Righteous Akurians. We throw energy with total disregard except for our intent and the target. We know absolute control over light photons and neutrinos; time and space, the Great Elements of Creation, the Planes of Heaven, Depths of Hell, *Over Flying like we did Tel Aviv*, and our own thinking and thought processes. Akurians are responsible for ourselves and everything we do or refuse. And True and Righteous Akurians are endowed and vested with both Righteous Power and Holy Authority to KNOW and to Judge accurately and honestly on the basis of that Knowledge. We are True Spiritualists and Master Metaphysicians, doing the impossible that no other 'religion' or 'doctrine' can accomplish – and doing it as a matter of routine.

Therefore, with this instructional you are going to increase your Powers and Abilities again; this time to selecting hard, physical MATTER; without either a fusion or fission reaction, turning its elemental parts and particles into ENERGY and then disposing of that ENERGY. The Most High taught me how to do it within the limitations of myself. I am going to teach you how to do it, and like with me, your success and capability will be within your own limitations; and there are no other limitations to the True and Righteous. IGNORANCE is the biggest limitation of all; and STUPIDITY is an absolute door-slammer.

Before you do anything else, make sure you understand this absolutely irreversible fact: **You don't make ENERGY, MATTER or FORCE and THEN direct it; you DIRECT the ENERGY, MATTER or FORCE and then MAKE IT!** All stupid-grinners and know-so-muches who will encounter this Instructional will learn THAT fact the hard way: Initially when they fail, by thinking the process doesn't work; and next, when it backs up in their ass in all its fury and they don't recognize the source of their own self-destruction. Disposing of matter – into energy – then into nothing is an identical equal.

The short version: **You don't UN-make MATTER into ENERGY and THEN direct it; you DIRECT the MATTER and ENERGY and then UN-MAKE IT!** Decide WHAT you are going to do BEFORE you attempt any of it; get the FINISHED situation clearly established, and you will succeed every time. Jackass it, and you are going to be the *first* to learn the hard way and the *last* to succeed.

Just as in CREATING energy and turning it into matter, we're going to keep the amount of ENERGY and MATTER to the smallest quantities. And we're going to maintain absolute control over the entire process to prevent any escape or misdirection of any factor. Either we're in control, or we are not. And again in this case, we'd damned well better be "IN CONTROL" with capital letters.

I'll background as we go, keeping those parts we need and adding cautions, of which the first is always: **DO NOT JACKASS!** Think it out, get what you intend down cold, ask all the questions

necessary. There are no stupid questions, only stupid people who don't ask questions ... and always to their own detriment.

ARE THERE ANY QUESTIONS?

To begin, let's take another look at the atom. An atom is the smallest particle of any Element that cannot be broken down into anything more; of which there are 118 confirmed in the latest Periodic Table. Water, the drinking and beer-making kind, is not an Element. It's made up of TWO Elements, Hydrogen and Oxygen; so water can be broken down into its base Elements, but Hydrogen and Oxygen cannot.

REFRESHER: let's look at Hydrogen, the smallest atom, having the least amount of internal particles: one proton with a positive charge in the inner core and one electron with a negative charge in the outer shell. That makes up a piece of matter – except there's no solid material! Hydrogen atoms have been photographed, all that can be seen is radiation. ENERGY! And relevant FIELDS OF RADIATION from that ENERGY, just like the reach of the FORCE-FIELD of a magnet! There isn't anything solid – quote-unquote – matter in the damned thing! It's all ENERGY! Very dangerous ENERGY in the hands of anybody who isn't paying attention.

ENERGY! Akurians handle ENERGY as a routine, and with a lot of precision. We change traffic lights; create, eliminate, direct storms and weather; set attitudes and perceptions around the entire Solar System and raise Hell in general, when and where we deem appropriate. We know about ENERGY! Different frequencies, different amounts, but ENERGY is still ENERGY. And there's nothing an Akurian can't do with ENERGY! Including change it without restriction and dispose of it like throwing out the trash, only with less contamination.

Delving into the internals of the particles of an atom, we find there are basically THREE known particles, the outer shell electrons with a negative charge, the inner core protons with a positive charge and a third inner core particle known as a neutron without any charge at all. A neutron is NOT a neutrino, it just doesn't have any electrical or known magnetic charge, either positive or negative, in its natural state. Scientists are still asking, "**What the hell is it doing there?**" even in the face of evidence that the presence of neutrons CHANGE the makeup of the atom. It doesn't have any charge, nor can it be charged – according to Scientific Theory – and thus doesn't contribute anything but weight ... gravity ...

GRAVITY? GRAVITY has an effect on TIME and vice versa? $E=mc^2$?! As the speed of mass/matter approaches the speed of light, *infinity* – TIME passage – approaches ZERO ... Gravity, time, and the ENERGY-MATTER effects? At the speed of light, *infinity*, TIME does not exist in forward or backward motion, but stands absolutely still regardless of the presence or absence of MASS/MATTER or GRAVITY. Exceed the speed of light, and TIME runs backwards – as is the case of those beautiful little neutrinos: and from the FUTURE into the NOW and on into the PAST and then on to what we know as the FOREVER!

Remember something about those neutrinos? They are neither positive nor negative too; and can be CHARGED with whatever FREQUENCY, ENERGY or INTENT an Akurian determines, and at any place in TIME to be manifest when and where we want! The same is true of neutrons; they can be CHARGED with any given FREQUENCY, ENERGY or INTENT – they can be BOUND or LOOSENED – and they can be manipulated, just don't expect any voltage of either polarity.

A True and Righteous Akurian can CHARGE any ENERGY, MATTER or FORCE with any FREQUENCY or INTENT we choose – and with correct application and refinement practice – produce any situation, condition and/or manifestation we want.

ARE THERE ANY QUESTIONS?

When you get to making and disposing of your own ENERGY and formulating and eliminating your own ATOMS, for whatever purpose, remember to CHARGE the neutrons with what you want those ATOMS to accomplish – and DISCHARGE them if you've charged them and need to stop or eradicate the ENERGIES you've set in motion! Once you've accomplished your purpose, like any good cook: *go and clean up the kitchen*, just in case there's still ENERGY running and you've effectively accomplished your objective or simply changed your mind for whatever reason!

Left alone, once the MATTER you've created have done their job, the entire ATOM will dissolve itself back into the ENERGY, leaving no trace it ever existed except in the Akashic Records and its addition to the already existing ENERGY. Change your mind about it, and you MUST go clean it up – neutralize it in its entirety. – whatever you've made, UNMAKE it. Just because you've changed your mind doesn't automatically change anything you've created to set in motion. Remember: *NEW ENERGY doesn't necessarily need to be made into a particle or atom; it can be used directly when created properly; and it can be made into or used as a FORCE!*

And, regardless of the structure and make-up of atoms listed in the Periodic Table, you can custom-design your own; put as many or as few protons, neutrons and electrons as you wish. The only limitation is the inner core is limited to protons and neutrons and the outer shell is limited to electrons. They simply will NOT go together any other way. Electrons will not fit nor operate in the inner core, and protons and neutrons will not fit nor operate in the outer shell. But BOTH the inner core and outer shell CAN be loaded with QUARKS to an almost infinite degree – acting individually as directed. ENERGY levels of all FOUR – Quarks, Electrons, Protons and Neutrons – can be virtually anything you want, as long as you make them properly.

Now that you're going to take MATTER, reduce it to ENERGY and then dispose of that ENERGY, you need to be cognizant that just like the DETERMINATION you made BEFORE creating NEW ENERGY, you must also establish the DETERMINATION you have in mind BEFORE disposing of both the MATTER and the ENERGY. The reasons "WHY" will become obvious before this Session is over.

We already know that most, but not all, ENERGY, MATTER and most FORCE stay PRESENT in the TIME portal we recognize as the NOW. Complicated? Not really. We've lived with it since The Most High made the Earth Plane existence, we just never thought of it in any other TIME-base configuration. NOW is the NOW and that is it; even though our personal experience is as much about the PAST as it is with the PRESENT and we're constantly contemplating the FUTURE. We also waste a lot of time and effort being impressed – or accepting – people as that which they are NOT because of the FORCE of their persona.

And WHAT HAPPENS to the ENERGY we transfer the MATTER into? Where does it go? What becomes of it once we forced its transition?

It remains in the NOW – the present – at neutral polarity: UNLESS in our prior DETERMINATION we want it to become some FORCE, like we did the neutrinos upon manifestation! YES! We're going to do that in this Session.

ARE THERE ANY QUESTIONS?

From this point forward, I want everybody to LISTEN and LEARN – and I do NOT want anybody jackassing with the processes UNTIL you have heard the whole scenario! LISTEN and LEARN, do NOT act until so directed.

For the most part, my commentary will be limited to ENERGY and MATTER with a bit of explanation by way of introduction into FORCE, We'll get to FORCE in due time once you have a better understanding of these first two. We are going a Quantum Leap forward and delve into DARK FORCE, the Scientific Community doesn't even know exists and the hallelujah halfwits bellow about it all the time and haven't a clue as to WHAT it is, HOW it works, or WHERE to recognize it. Both the Scientists and

the Churches are totally oblivious to DARK FORCE, even though the hallelujah halfwits ramble on about it almost without end. DARK FORCE has nothing to do with Demons or Demonics; it's "DARK" simply because it's UNKNOWN!

The fact all Trained Akurians are cognizant, knowledgeable and comfortable with TIME and ENERGY is again to our advantage. With respect to both ENERGY and MATTER, there are plenty of both already in existence. Between them which includes Dark Matter and Dark Energy, they literally fill all Creation. DARK FORCE is snuggled in the mix, hiding in plain sight!

Remember the Great Rule, BEFORE you create or evaporate anything, make your DETERMINATION. If there is no DETERMINATION, the remaining marked-to-who-the-hell-ever ENERGY, MATTER, LIGHT PHOTONS, QUARKS or ambient FORCE and all, are going to manifest with YOUR essence on them! Unless you dispose of them in proper order, and neutralize them and make them manifest in the NOW, you are going to inherit the fruits of a very bitter lesson.

The NOW does not recognize anything but the PASSAGE OF TIME! It already has its own ROOM TO EXIST, but you need to make MORE ROOM for the NEUTRALIZED ENERGY manifestation. Sounds like a contradiction since the MATTER and all its relative parts and particles already EXIST, why would we need more ROOM? It appears the MATTER and ENERGY in question already HAVE room. And they do! But MATTER and ENERGY do not occupy the same ROOM requirements; nor necessarily the same FREQUENCY (if any), and thus we just make NEW ROOM and let Creation adjust as necessary. Note the inclusion of AKASHA in the Manifestation Invocation – and what we CHARGE that AKASHA to do.

Once we make ROOM TO EXIST for the ENERGY we're going to create from the MATTER – and eventually the FORCES – we've selected: We're going to require the ELECTRONS, PROTONS, NEUTRONS to dissolve into LIGHT PHOTONS, then make the LIGHT PHOTONS dissolve into QUARKS then dissolve the QUARKS into NON-FREQUENCY ENERGY. After we get things back to NEUTRAL ENERGY, we're going to make it "BE STILL" turning it into nothing.

Let's play that one a bit forward and then backward.

We set the DETERMINATION and then CREATE ENERGY and turn it into QUARKS that pretty much of themselves turn into LIGHT PHOTONS – which LIGHT PHOTONS the QUARKS turn into has been specified in the DETERMINATION we made at the outset. All LIGHT PHOTONS are not equal, they do not necessarily have the same FREQUENCY, which determines their color, but the Forces involved are already set and established via Natural or Creation Law. You don't have to re-tune a musical instrument just because you're going to change keys or play a different song. The Transfer Forces we're using are the same way: make the DETERMINATION clear, whether creating or dissolving, and the end result is automatic. It's the way Creation works.

FORWARD: We set the DETERMINATION – what we want as an end result - We create ROOM TO EXIST for everything that going to be required – we create the NEW ENERGY, turn it into QUARKS that become LIGHT PHOTONS as their FREQUENCY changes into whatever is required for the ATOM OF MATTER we decided on at DETERMINATION; and we make the appropriate electrons, protons and/or neutrons – then FUSE them together. That's what we did in the last Session.

BACKWARD: We still set the DETERMINATION first and foremost! Then we choose the MATTER or the FORCE we're going to dispose of; we separate the particles, electrons, protons and/or neutrons; extract the LIGHT PHOTONS and turn them into QUARKS – set the QUARKS frequencies to ZERO, and they become neutral ENERGY. To make damned sure they STAY that way, we again neutralize or ZERO the ENERGY to eliminate any and all frequencies whatsoever.

REPEAT: You'll notice I mentioned both MATTER and FORCE. They are NOT the same thing, but both are controlled, created, destroyed and made to manifest in exactly the same manner. Why? Because FORCE is DIRECTED ENERGY existing as unformatted MATTER! Just like WATER is formatted AIR – Hydrogen and Oxygen. Both exist as ENERGY formatted into Negatively charged Electrons and/or Positively charged Protons making up Hydrogen and Oxygen ATOMS, and then fused –

TWO Hydrogen and ONE Oxygen into a MOLECULE of water. In actual manifestation both the Hydrogen and Oxygen actually exist as ENERGY formatted into MATTER and combined to create water. The advantage for Akurians about FORCE is, because FORCE is formatted ENERGY that has not yet become MATTER, we can make it do any damned thing we want because in its own natural state it exists in the form of DIRECTED ENERGY.

Let's take that one a bit farther.

FORCE can also be DIRECTED ENERGY never to become MATTER. We've all heard the term, "the FORCE of someone's personality" or "persona" or "presence" ... That gives an entirely different complexion to "May the FORCE be with you!" ... when a more generous statement would be, "May the FORCE be you!" intending the person to have the FORCE of personality, persona or presence. The NEW ENERGY you already know how to create can just as easily be made into a FORCE for whatever DETERMINATION you have decided at the outset. And the FORCE that already exists of and about a person – Barack Hussein Obama? ... Michelle Obama? ... if it please thee ... can be pulled up and evaporated! The victim will be doing their damndest to maintain or retain, but the FORCE isn't there for that to happen, effectively eliminating their composure. We all know what happens to anyone who loses their composure – an unexpected question, presentation of counter-documentation – or faced with the truth in the process of spewing a knowing damned lie.

But let's get back to MATTER, because if you can't do MATTER you damned sure can't do FORCE either.

ARE THERE ANY QUESTIONS?

I don't want anybody to act until I tell you to ... I want you to listen and learn. Once you've been through the process, we can all do this together and nobody will get jackassed. LISTEN AND LEARN!

First the DETERMINATION!

We're simply going to dissect and dispose of ONE Atom of Hydrogen and neutralize all its existence into neutral energy then into nothing.

In the planning stages BEFORE you UNMAKE anything, determine HOW MANY of WHAT is in its makeup. Let's plan for a Hydrogen Atom. It has only ONE proton in the inner core and ONE electron in the outer shell. Two particles. Those two particles are made up of LIGHT PHOTONS, in turn made up of QUARKS, in turn made up of ENERGY.

A bit of instruction BEFORE the practice, we're going to be using MATTER that already exists. LISTEN and LEARN: DO NOT ACT! This is what we are going to do AFTER the rehearsal.

1. Palms out, facing each other, extended far enough out to avoid your own Spirit Energy;
2. SELECT ONE ATOM OF HYDROGEN. There's a bazillion of them in the space of your hands, and you only want ONE.
3. Cup your hands and close them like you were hiding something. You want a closed void between your hands; and at this stage, your hands can be in any relaxed position, you do not have to keep them extended.
4. CHARGE that selected ONE ATOM OF HYDROGEN between your hands with AKASHA, AIR, FIRE, WATER and EARTH.
5. Now you can transport that ONE ATOM OF HYDROGEN to the exact center of the void between your hands, and that's where you want it. There you can feel it equally on all the surfaces of your hand making up that void, and control it infinitely.
6. Invoke: **"ELECTRON, PROTON, PHOTONS OF LIGHT, BECOME NOW SPIRIT QUARKS!"** Simply speak the words and for now that is all there is to it. You haven't assigned anything other than the intended manifestation of ONE ATOM OF HYDROGEN. And you should note some

TEMPERATURE and WEIGHT difference – not a lot, an atom isn't very big; but as the LIGHT PHOTONS revert back into QUARKS, they will emit some heat.

7. Now that you have a handful of QUARKS, you only need to push them into nothing: with this Invocation, **"INTO NOTHING!"** And one chant is all it takes. Without opening you hands, compress them until the palms touch at the same time chant and the QUARKS will dissolve into nothing. When you've done this correctly, your palms will feel an instant coolness. When you command the remnant energy to **"BE STILL"** The heat will be gone, and so will that atom and all its energies.

You shouldn't be DOING anything but learning the process at this stage in the instructional.

ARE THERE ANY QUESTIONS ABOUT THE PROCEDURE?

What we are going to do: **CHANGE ONE ATOM OF HYDROGEN – ITS PROTON AND ITS ELECTRON – BACK INTO LIGHT PHOTONS, ITS LIGHT PHOTONS BACK INTO QUARKS, AND THE QUARKS BACK INTO NEUTRAL ENERGY.**

This time I want everybody to DO exactly as I tell you – WHEN I tell you, not BEFORE nor waiting around until LATER – but right then. No exceptions, and do not interrupt for questions or comments.

Reminder: Hear me, means I'm going to tell you WHAT to do; On my command means to do it!

Hear me:

1. Palms out, facing each other, extended far enough out to avoid your own Spirit Energy;

On my Command:

Akurians, Paws up!

Hear Me:

2. Akurians, DETERMINE all the Great Element ENERGIES at the same time and with the same command: select ONE ATOM OF HYDROGEN! Close your hands together in a cup, and direct the ONE ATOM OF HYDROGEN into the exact center of the void between your hands.

On my Command:

ONE ATOM OF HYDROGEN INTO NEUTRAL ENERGY!

On my Command:

3. **Akurians, ONE ATOM OF HYDROGEN; center in my void; AKASHA, AIR, FIRE, WATER, EARTH;**

Hear me:

You are still charging the same manifestation; hold it steady.

On my Command:

4. **Akurians, "ELECTRON, PROTON, PHOTONS OF LIGHT, BECOME NOW SPIRIT QUARKS!"**

Hear me:

As you invoke slowly close your hands until your palms are flat:

On my Command:

6 **Akurians, "QUARKS NOW INTO NEUTRAL ENERGY!"**

Hear me:

Akurians, command all the Neutral Energy in the nothing between your hands, "BE STILL!"

On my Command:

7. **Akurians, "BE STILL!"**

On my Command:

Akurians, stand down.

You have taken ONE ATOM OF HYDROGEN and turned it into an effective nothing; Neutral Energy. You can do anything you want with your hands, including not believing what they just felt like.

It's that easy to dispose of SMALL – REPEAT – SMALL amounts of MATTER, regardless of what it is. With practice and some experience, you can actually make and UNMAKE untold tons of any material you want. It will require a LOT of energy out of you, and a LOT of very precision practice, but there is virtually an unlimited amount of MATTER and ENERGY already in existence to work with.

ARE THERE ANY QUESTIONS?

When it comes to making NEW ENERGY or disposing of MATTER or OLD ENERGY, the size of the area you set up between your hands can have very little effect on the actual size of manifestation. Handling FORCE is the same. You only have to be cognizant of the NATURE OF THE FORCE to manipulate it, its size is totally irrelevant.

As simple as Telekinesis, handling FORCE is even more so - just a little longer to learn – *and the application must be absolute*. The only problem is, when you CHANGE THE NATURE OF A FORCE, always have SOMETHING prepared for it to do or become; or just like NEW ENERGY it's going to manifest in a TOTAL BLOCK of YOU. Fortunately, and *UNLIKE* a group-made golem when one of the creators is no longer available, FORCE can be overcome by any or all its DETERMINATORS! That can come with some problems if any one in the group is prone to soap operas or limp-wristed jelly-fishing. You'll know WHO the traitor is because the FORCE will unload on the LAST person to manipulate it because of the INTENT absorbed – but with the power of all those originally involved.

Before we get started: We're going to pull up the Spirit of Michelle LaVaughn Robinson Obama; and before we do that, we're going to determine whatever it is about her persona that we want to remove! We know she's an egotistic bitch, ruthless and self-serving, even in her Public Duty as First Lady. She actually acts like a street whore in masquerade as a Grand Lady. She has the education, and now influence of High Office, to pass herself off as a better-than-thou, but the fact is she's a morally-bereft slut that would stoop to anything to maintain her self-inflicted 'superiority' ... for want of better terms.

We're going to DETERMINE the right words that best describe the true essence of her being, and then we're going to strip the FORCE involved that she be considered and known in her true light: herself, as she actually is. We don't have to put her under any curse, we only have to CHANGE the FORCE of her façade.

Reminder: Hear me, means I'm going to tell you WHAT to do; On my command means to do it!

DETERMINATION: TO TOTALLY NEUTRALIZE THE ELEGANT INTELLIGENT HONEST PATRIOT FORCE OF THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA!

Hear me:

1. Palms out, facing each other, extended far enough out to avoid your own Spirit Energy;

On my Command:

Akurians, Paws up!

On my command:

2. **Akurians, CALL UP THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA!**

Hear Me:

3. Akurians, Pull forth the **ELEGANT INTELLIGENT HONEST PATRIOT** FORCE OF THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA, hold it between your hands, and let the rest of her go.

On my Command:

ELEGANT INTELLIGENT HONEST PATRIOT FORCE OF THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA!

Hear me:

4. Akurians, CHARGE all the Great Element ENERGIES at the same time and with the same command:

On my command:

ELEGANT INTELLIGENT HONEST PATRIOT FORCE OF THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA: **AKASHA, AIR, FIRE, WATER, EARTH;**

Hear me:

5. As you invoke slowly close your hands until your palms are flat:

On my Command:

Akurians, ELEGANT INTELLIGENT HONEST PATRIOT FORCE OF THE SPIRIT OF MICHELLE LAVAUGHN ROBINSON OBAMA NOW INTO NEUTRAL ENERGY!

Hear me:

6. Akurians, command all the Neutral Energy in the nothing between your hands "BE STILL!"

On my Command:

Akurians, "BE STILL!"

Akurians, stand down.

A point to consider here, when disposing of or changing ENERGY, MATTER or FORCE: We set the process: **AND YOU CAN'T CHANGE YOUR MIND ONCE YOU START!** If you intend to dispose of or change either ENERGY, MATTER or FORCE for a specific purpose, you might have to invoke more than one process – most likely one for each of the factors in your intent.

Single factors of FORCE to stick in some bastard's ass are both an easy practice and THEY CAN'T SEE IT COMING or discern it as anything other than an essence of YOU. That means the bastard cannot help but KNOW within themselves that YOU did it, there is no escape from it, no protection against it, no cure for it and there's more on the way at YOUR determination! They won't be able to discover HOW you did it, they'll just KNOW for damned sure YOU did it.

It's that easy to make, direct or disperse as much ENERGY, MATTER or FORCE as you want or need, and that easy to make what you want out of it. It will require a LOT of energy out of you, and a LOT of very precision practice, but a True and Righteous Akurian has virtually unlimited Righteous Power and Holy Authority to work with. You can make brand NEW ENERGY, and change it into a

FORCE specifically designed to manifest anywhere in Creation, the Planes of Heaven, the Depths of Hell, Earth or to heal yourself; or deadly nightshade in some worthless jackass' brain.

You just have to KNOW what the hell you need as a FINISHED product. Because ENERGY, MATTER and FORCE are also pure and uncontaminated. They work like miracles, and indeed they are.

CAUTION! Nobody this side of The Great Veil really knows how many atoms there are in a human body, nor how many FORCES there are in Creation – as no two are necessarily alike. The best way to deal with any is to NOT jackass yourself, and DISCERN YOURSELF!

And get this point straight: You don't make or dispose of ENERGY, MATTER or FORCE and THEN direct it; you DIRECT the ENERGY, MATTER or FORCE and then MAKE or DISPOSE of it!

ARE THERE ANY QUESTIONS?

As I said in the previous Instructional. Now that you can MAKE and UNMAKE ENERGY, MATTER and FORCE you can also charge them to become whatever you want, and it isn't limited to quarks, particles, atoms or anything else. You can direct NEW and OLD ENERGY, MATTER and FORCE to become and/or manifest as anything and everything you can imagine, and actually more than you CAN imagine. It's DANGEROUS to blast off half-cocked with anything, and ENERGY, MATTER and FORCE are no exceptions. You can make all the NEW ENERGY you want, but you have to spend the time and effort to do so. Nothing is really 'free' anywhere in Creation – everything will BALANCE including NEW ENERGY, NEW MASS/MATTER and FORCE whether just created or just changed. It's going to BALANCE, so be prepared with a bit of common sense to make that BALANCING as minor an event as possible.

With practice, you can actually overwhelm an army, fully equipped and on the move! You can't do it at the moment, and if you don't practice, you won't be able to do it at all. Especially when the chips are down.

Now one more word of **CAUTION:** I don't care what, who or how many worthless bastards you put the hammer to; Marxists, Communists, Fascists, Socialists, Progressives, Catholics, Christians, Muslims, Jews, Levites, manipulators, politicians, priests, preachers and other liars: **BUT NEVER ATTEMPT ANYTHING AGAINST A FELLOW AKURIAN – PK OR NOT!**

First, because you have no business IN their Sacred Ground! Period.

Second, they damned well might not want your *'knowing better for them than they know for themselves'* socialist-ended poppycock! I damned sure don't.

As I said in the previous Instructional, I walked away from a very glamorous and profitable career to do what I'm doing, and I do not regret one second. Everything that's happening to me, I, and I alone, am responsible for: including my ability to gut political schemes and abominations from head to toe. That my hearing is failing rapidly, as is my eyesight, and my health in general, is MY doing ... **and nobody else's.** I neither want your sympathy nor your interference. I have things to do topside – none of which have anything to do with the idiotic idea of 'a mansion right next door to Jesus' – but have everything to do with the preparations and battle plan for the Hell that's still on the immediate Horizon.

The time I have left is going to be spent in attempting to train all of you into the Knowledge and Fire Power you're damned sure going to need; that you can pass it on to your own successors as we make success and headway against all the current socialist bastards.

So, leave me to hell out of any of your considerations, except to ask me any questions I can answer.

ARE THERE ANY QUESTIONS?
