

**RAMPAGE OF THE MOON-GOONS**  
**Los Angeles – San Francisco – Sacramento – Seattle - Chicago**  
**16 December 2012 - 3 Tevet 5773**

First thing, Wall Street KAK JEWS are all **COMMUNISTS** in disguise – *but the Brokers and Investors are NOT!* Most are in business just like any other business person. The only Wall Street types, wherever they operate, we're out to take apart at the insanity seams are the **COMMUNISTS** whether they be Jews, KAK JEWS, or OWG Manipulators. *Nobody else.* Some of our Akurians are still in ISAAC mentality, as if they didn't learn a damned thing! Our target is NOT the destruction of Wall Street or its investment structures. The Rockefellers and Bilderbergers are the PRIME targets, not the everyday working stiff that handles the many transactions.

The insane slaughter at Newtown, Connecticut, Friday, 14 December 2012, is another FALSE FLAG mass-execution that got away from the handlers. Make no mistake, the socialist bastards would kill every child on the planet to gain total enslavement control. And, it's a DIRECT HIT of our **Moon-Goon** installations in Washington, D.C. and New York City. And, although there is little, or no, news coverage about the most critical point – population – Newtown is a rather wealthy neighborhood of primarily Jews! Do not be deceived, THAT was not part of *their* plan; but somebody blew the patsy-choice.

**BREAKING NEWS: CT School Shooter Killer Link To LIBOR SCANDAL?**  
[http://beforeitsnews.com/politics/2012/12/ct-school-shooter-killer-link-to-libor-scandal\\_fabian4liberty-2476962.html](http://beforeitsnews.com/politics/2012/12/ct-school-shooter-killer-link-to-libor-scandal_fabian4liberty-2476962.html)

**"The father of Newtown Connecticut school shooter Adam Lanza is Peter Lanza who is a VP and Tax Director at GE Financial. The father of Aurora Colorado movie theater shooter James Holmes is Robert Holmes, the lead scientist for the credit score company FICO. Both men were to testify before the US Senate in the ongoing LIBOR scandal. The London Interbank Offered Rate, known as Libor, is the average interest rate at which banks can borrow from each other. 16 international banks have been implicated in this ongoing scandal, accused of rigging contracts worth trillions of dollars. HSBC has already been fined \$1.9 billion and three of their low level traders arrested."**

**And the official response?**

Senator Dianne Feinstein (D-CA) told NBC's Meet The Press on Sunday that she will once again reintroduce an assault weapons ban bill on the first day of the new Congress. As an introduction to a question on the leadership of Barack Obama on banning assault weapons the host quoted The Washington Post on the record of Barack Obama: "I'm not going to take away your guns," Obama promised in September 2008. However, he advocated closing the loophole that allows for gun purchases without background checks at gun shows and for reinstating the assault weapons ban.

**Obama kept his promises to gun owners but no to gun control advocates... The president signed bills allowing guns in national parks and on Amtrak. He has not pushed for the reinstatement of the assault weapons ban... Nor has he moved towards closing the gun-show loophole.**

**The question was then asked, "Has the President failed to lead on this? Feinstein was clear that Obama "is going to have a bill to lead on because the first day a bill I'm going to introduce in the Senate, and the same bill will be introduced in the House; a bill to ban assault weapons."**

While the Lying Stream Media rants and raves about "more and more gun-control" as the one and only solution, *the fact is:* anyone who is going to break the law to rape, rob or murder isn't concerned about breaking any gun-law to make sure they have the upper – and thus victorious – hand. Gun Violence is forever followed by more campaigning for gun control – which isn't about guns, it's about control! The common sense factor is: If we need a "strong National Defense Posture" to be safe in the world, then we also need a "strong PERSONAL Defense Posture" to be safe in our cities, highways, centers, schools, homes and everywhere else.

There are going to be many more such senseless deaths – across the spectrum of neighborhoods and ethnicity – before the OWG is brought down. We, the Akurians cannot be concerned with the number of immediate losses, as those losses are NOT ordained by the Akurians, but by the OWG Manipulators who are totally responsible and liable; and against whom we are the Living Testimony before The Most High.

Were we, the Akurians, to concede and permit the murdering bastards to gain The Grand Plan of TOTAL Global Enslavement, there would be many more millions of victims of wholesale murder. **The OWG plan is to reduce the world's population to some 500-Million.** The most probable OWG 'solution' is a series of plagues or epidemics and the 'failure' of both preventative 'shots' and, of course, no certain 'cure' at the time. Currently there are just over 12.5-Billion people and growing, so a mass slaughter of some 12-Billion humans is what we are considering as *their* alternative. The answer is "**NO!**" without further consideration.

The OWG intends mass slaughter by various means as opportunity presents itself and the logistics of cadaver disposal are already well advanced. FEMA has already stockpiled several million – that's right, "million" – five-six body plastic coffins. Were the contents children as opposed to adults the number they will hold is much higher. There won't be any body-preservation or embalming efforts. The best any corpse is going to get is a dusting of lime, if that.

There IS a fine line for Akurians, and our **Moon-Goons** are ideal weapons because they are very narrow in application. Combined with a single-purpose one-hand BELLY BALL – to signal the essence of a **COMMUNIST** of any stripe or level – in a single-purpose **Moon-Goon** whose only duty is to inject, infect and embind absolute, incurable,

uncontrolled insanity into each and every **COMMUNIST** within itself: a more perfect weapon just does not exist for such purpose.

Our target: *any and all forms, practitioners, advocates and instructors of **COMMUNISM!***

Akurians, follow my instructions exactly. We're going to make a series of **Moon-Goons** – *one at a time* – and send them directly to their respective targets.

Akurians, make a new and separate **Moon-Goon** on my instructions:

Akurians, on my command:

**Target = Los Angles, California – Center Point = Dodgers Stadium.**

Akurians, make a **BODY OF LIGHT**. Disconnect from it and stand it a couple of feet away. Without leaving your own body, silently charge it with NEUTRALITY that it be totally pristine and uncontaminated with any energies including your own. Now endow that **BODY OF LIGHT** to see through its own eyes and report to you and you alone. When you can see what it is showing you, whatever its looking at, there will be a slight powder blue tinge, almost like a halo, around everything you'll see through its eyes.

Now make a *one-handed BELLY BALL*, by holding the palm of either hand about four to six inches in front of your solar plexus. You'll note THAT energy is almost instantaneous and that this **BELLY BALL** has a solidity to it as if it had immeasurable strength. Float this one-hander out from yourself a couple of feet – disconnect yourself from it – and DECLARE it to be an infinite and uncompromising detector of **COMMUNISM** and to turn red when it detects any degree of **COMMUNISM**. For an instant, visualize a yellow hammer and sickle – the **COMMUNIST SYMBOL** – and your one-hander will turn bright red! The advantage of a one-hander is that like a **Moon-Goon**, they are very specific.

Float your one-hander into your standing **BODY OF LIGHT** and merge them into one energy and one entity. Now you should have a free and uncontaminated **BODY OF LIGHT** that can go anywhere and do anything as a **BODY OF LIGHT**, including infallibly detecting any and all presences, practitioners, advocates and instructors of any and all forms of **COMMUNISM**.

Using your **FULL BODY SUPER SENSE** detect the Moon wherever it may be from your actual location. *You just want to know where the moon is.* Send your **BODY OF LIGHT** to the Moon and expand it lengthwise locating its head at the northern pole, its feet at the southern pole. You want the polar energies to come **IN** through the head and **OUT** through the feet of your **BODY OF LIGHT**. Now charge your **BODY OF LIGHT** with the polar-axis energies of the Moon. They are somewhat jagged and uncomfortable to the touch. You'll know when you've got it right by trying to make your

**BODY OF LIGHT** spin on that axis in either direction *and can't do it!* It should be as though your **BODY OF LIGHT** is frozen in place: *and if you've done things right, it is.*

Now expand your **BODY OF LIGHT** as if to fill the entire Moon and absorb all the Moon energies you can manage. Your **BODY OF LIGHT** should be the same size as the Moon; no larger, no smaller. And now your **BODY OF LIGHT** is free to move any direction you want, and there are no barriers whatsoever to its motion. Now you have a **Moon-Goon** flowing with a dull **dark-green** content.

Before we send it to all those worthy recipients we want to ensure we have a properly infected **Moon-Goon**. Akurians, again, visualize a yellow hammer and sickle and your **Moon-Goon** will blink some shade of red. When you stop the vision it will return to its poisonous **green**.

Akurians, now charge your **Moon-Goon** to be an incurable disease of pure unrestrained insanity and to infect its insanity into every **COMMUNIST** regardless of any other consideration. There is no cure, no escape, no relief, and once infected, the disease of your **Moon-Goon** is merciless. The objective is to cause every **COMMUNIST**, open or closet, to act in infinite, uncontrollable, unrestrained insanity, even of self-preservation. Your **Moon-Goon** is an incurable disease of uncontrollable insanity that incites as much inexcusable violence as it does inexcusable activity.

**Any failures? They're not a problem as this isn't as easy to do as the instructions appear. Before we can proceed we need to have as many as possible at the same level.**

**A point to remember: your Moon-Goon is limited to COMMUNISTS by whatever stripe – including those who are programmed into it.**

Akurians, on my command:

**Float your Moon-Goon from the Moon to Los Angeles, CA, and reduce it to 500 miles in diameter. Flatten your Moon-Goon so that it reaches 100 miles into the Earth and 100 miles into the atmosphere – centered on Dodgers Stadium. Akurians, bind your Moon-Goon to remain at this location until you alone remove it.**

**Now, reach into the Sun and make a direct Sun-to-Moon-Goon energy link, fill and bind it to your Moon-Goon. Mixing Sun energies and the Moon is extremely dangerous as the Sun gives a Moon-Goon all the fuel it can ever use. The energies are NOT the same and react violently to one another. These Moon-Goons will spare no effort to infect every COMMUNIST within itself for the sole purpose of causing the victim to degenerate into uncontrollable insanity, and destroy themselves primarily with public displays. It has all the Sun energies necessary to do it. Your Moon-Goon is now your own living entity of Invocation of the Death Moon and nobody with even a shred of COMMUNIST sympathy can long survive it.**

Akurians, make a new and separate **Moon-Goon** on my instructions:

**Target = San Francisco, California – Center Point = Golden Gate Bridge.**

Akurians, on my command:

Akurians, make a **BODY OF LIGHT**. Disconnect from it and stand it a couple of feet away. Without leaving your own body, silently charge it with NEUTRALITY that it be totally pristine and uncontaminated. Float your one-hander into your standing **BODY OF LIGHT** and merge them into one energy and one entity. Now you have a free and uncontaminated **BODY OF LIGHT** that can go anywhere and do anything as a **BODY OF LIGHT**, including infallibly detecting any and all expressions of **COMMUNISM**.

Float your **BODY OF LIGHT** to the Moon and expand it lengthwise locating its head at the northern pole, its feet at the southern pole. The polar energies to come **IN** through the head and **OUT** through the feet. Now charge your **BODY OF LIGHT** with the polar-axis energies of the Moon. You'll know when you've got it right by trying to make your **BODY OF LIGHT** spin on that axis in either direction *and can't do it!*

Akurians, now charge your **Moon-Goon** with the energies of the Moon to be an incurable disease of pure unrestrained insanity and to infect its insanity into every **COMMUNIST** regardless of any other consideration, the disease of your **Moon-Goon** is merciless. Your **Moon-Goon** is able to cause every **COMMUNIST**, open or closet, to act in infinite, uncontrollable, unrestrained insanity, as an incurable disease that incites as much inexcusable violence as it does inexcusable activity.

**Your Moon-Goon is limited to COMMUNISTS by whatever stripe – including those programmed into it.**

Akurians, bind your Moon-Goon to remain at this location until you alone remove it.**

**Reach into the Sun and make a direct Sun-to-Moon-Goon energy link, fill and bind it to your Moon-Goon. Your Moon-Goons will spare no effort to infect every COMMUNIST within itself for the sole purpose of causing them to degenerate into uncontrollable insanity, and destroy themselves primarily in public displays. You have already disconnected yourself from your Moon-Goon, so all you have to do now is return to your own body. Clean and recharge yourself with a Sun Link if necessary.
