

## MIRROR IMAGES OF THE PLANES

Seeing Spirits – regardless of their association – is often labeled 'the devil's work' or other such nonsense. *Especially by those who can't do it.* The fact is, anybody can do it who can follow simple rules of an exacting process. Once you know how, via this instructional, you'll know why all Demonic Churches defamate these simple and very effective procedures. **The bastards don't want YOU knowing the TRUTH about them!** It will take some practice before you can call time-place-entity but NOT years on end unless you're jackassing the practice.

### EQUIPMENT:

**FLAT MIRROR:** Hand mirrors will work, but the smaller picture sizes a foot or so on an edge work far better due to viewing room. Large dresser or wall mirrors are ideal. They just need to be accessible.

**CANDLES:** Nothing fancy, ordinary tea-, emergency or holiday candles work as well as the most expensive. In this case jar-candles work as well as any other. You just need a LITTLE light you can control as to position. You can use one or two CANDLES as a matter of choice – and one works as well as two. No exceptions.

**WAX-CATCH:** to prevent melted wax from spilling on to furniture, et cetera. Anything disposable will work.

### **NEVER PROJECT INTO ANY MIRROR! NEVER!**

The set up. Make sure the mirror is cleaned, without any fingerprints, et cetera, in the viewing area. Turn out all artificial lights and pull the shades to darken the practice area – generally sitting before a table-mirror combination. You just need room to set one CANDLE halfway between yourself and the mirror just as you would to dress or groom yourself; or one CANDLE on each side but the same distance between you and the mirror with yourself centered between them. Nothing more.

Light the CANDLE(s) and position them. Using two CANDLES requires you to place them about the same distance apart as the halfway distance between yourself and the mirror.

The next part can be a bit frustrating ... you need to position yourself as you're going to sit when viewing, and look at your image – right between the eyes – NOT the center of your forehead: **BETWEEN YOUR EYES!** Even if that is on your nose or base of your brow. Now that your mirror is clean, and you are seated exactly as you will when viewing your image in the mirror; with the tip of your finger, make a print on the mirror that will be as EXACT as possible to the point right between your eyes when seated. If you miss it, clean it and try it again. The measurement can be a problem, so have your cleaning cloth at hand and BE CAREFUL if you're using any flammable fluids. You don't need a fire, you need a clean, properly marked mirror!

Once through that ordeal, all you need do is sit *still* and WATCH, looking at your image – between your eyes – focused on that spot on the mirror. Your eyes will drift between them, and that's fine, just don't gander all over the reflection.

Within a very few seconds you will begin to view shadows around your image, and behind you in the view. ***Those at the perimeters of the mirror are a deliberate distraction.*** Ignore them. If the Shadows in Spirit won't come into easy view, since you are NOT going to deflect your eyes to any other point, they are attempting distraction, nothing more.

You will see all manner of shapes, sizes, cloud-like puffs, faces, whole bodies, et cetera, and some even in light pastel colors.

**DISCERN** what you are seeing **AT THE SURFACE OF THE MIRROR** and no farther. **NEVER PROJECT INTO ANY MIRROR! NEVER!** Because you are safely viewing from/through a Clairvoyant Device, and despite the fact the images you are viewing except your own and the room are SPIRIT IMAGES in the same room with you does NOT endow those entities or materials to effect you in any manner. They are in one Realm/Plane and you are in another. That you can see them is YOUR advantage, not their's.

With practice, you will be able to call up any given TIME and any given PLACE! Each must have a relevance with the other. Otherwise you can select a PLACE and not see anything ... except the place .... Because you haven't selected a TIME ... a WHEN ... that has, ***or will***, take place there. Some given TIME by itself is equally valueless. For instance, we know the attack on Pearl Harbor was at 7:55 AM, December 7th, 1941. My son, William Leslie Cunningham was born 7:55 AM, December 7th, 1968, at Dayton, Ohio! Similar TIME, totally different PLACE, entirely different presence and atmosphere.

With that same practice, you will be able to summon spirits ***within the Etheric, Earth and Deros levels*** ... and you can inquire of the dead ones ... Seeing into any of the close-Earth levels is well worth the effort to achieve, as whatever is going to happen ***here*** is foretold and recorded ***there!***

**NEVER PROJECT INTO ANY MIRROR! NEVER!**
