Akurians:

For all who wonder *how-and-with-what* I expend my time and do all day long, the following is but one book in the library I deal with every day. **AND THIS IS JUST THE POLITICS!** These are just *some* of the things I need to know.

That I am the least formally educated among you: the many and uncountable HAND PRINTS and DIRECT HITS we have succeeded over the years at my instruction should be sufficient for all training Akurians to follow instructions and Invocations *exactly* until you are a Master in your own right. And, those uncounted victories should be another layer of evidence to prove WHO sent me for His own purposes, and the **Authorities and Responsibilities** passed on from me as you progress in Truth and Righteousness.

Those who will follow me over the future, whether of The Grand Council of Gnostics, Staff or even general membership, will have to take on the responsibilities that are part and parcel of the Grand Damnations and must deal with them and their perpetrators accordingly. Nobody can do either without proper training and practice. There won't be TIME to learn and develop the FirePowers required at the last minute. As these are the Days of Opportunity that must be expended in training and practice, so are the coming Days of Horror, Times of Great Trouble (Tribulations) and Unimaginable Distress upon the whole Earth – *unless we, the Akurians*, preempt all the bastardly damnations below along with all their other infestations – and restore Righteousness and Sanity which the world's leaders will not, and the world's religions cannot, accomplish.

Below is just a sample listing of my concerns, obligations and responsibilities with respect to the POLITICS *we're involved in as you read*. It contains preliminary information I hope you will become familiar with, as THIS is what you are going to inherit as the Grand Council and Staff and you'd damned well better be knowledgeable, advised and cognizant – *and this is just the politics* – or you are going to fail between now and Shiloh!

Anyone who reads this and doesn't see the idiocies of 'their' preferences – such as occurred with Tropical Storm/Hurricane Isaac – with respect to WHAT we must accomplish in violation of my direction to the contrary, is already doomed to their own damnations and Eternal Destruction. I cannot and I will not waste any time, effort or energy bailing out the boneheads! I have no responsibility or liability whatsoever for those who WILL NOT think. THOSE MENTIONED BELOW ARE THE ENEMIES: NOT ME AND NOT ANY OTHER AKURIAN!

There are some who will read this letter that are fully qualified to handle this POLITICAL situation and to whom nothing herein is a surprise, *some of whom have been about the Constitutional aspects of these damnations for several years*. I am always open to their counsel, and without them my job would be a far greater burden than it already is; but the RESPONSIBILITY Before The Most High for as long as I continue is mine, and mine alone. The qualifications to handle just the said POLITICAL situation alone – with all its demonic contents, energies, endeavors and intentions – is not sufficient to handle everything else that must also be given its own share of due consideration. There are the Spiritual Teachings – from personal experience – the rest of you combined do not yet possess. As proficient as some of you are, left with the contamination of 'self-appointed' and 'superior-to-all' idiocies of others among you, and with whom you must contend, the duty from here to Shiloh is and will remain far more dangerous and disastrous than it should be and will compound recruiting losses as a result.

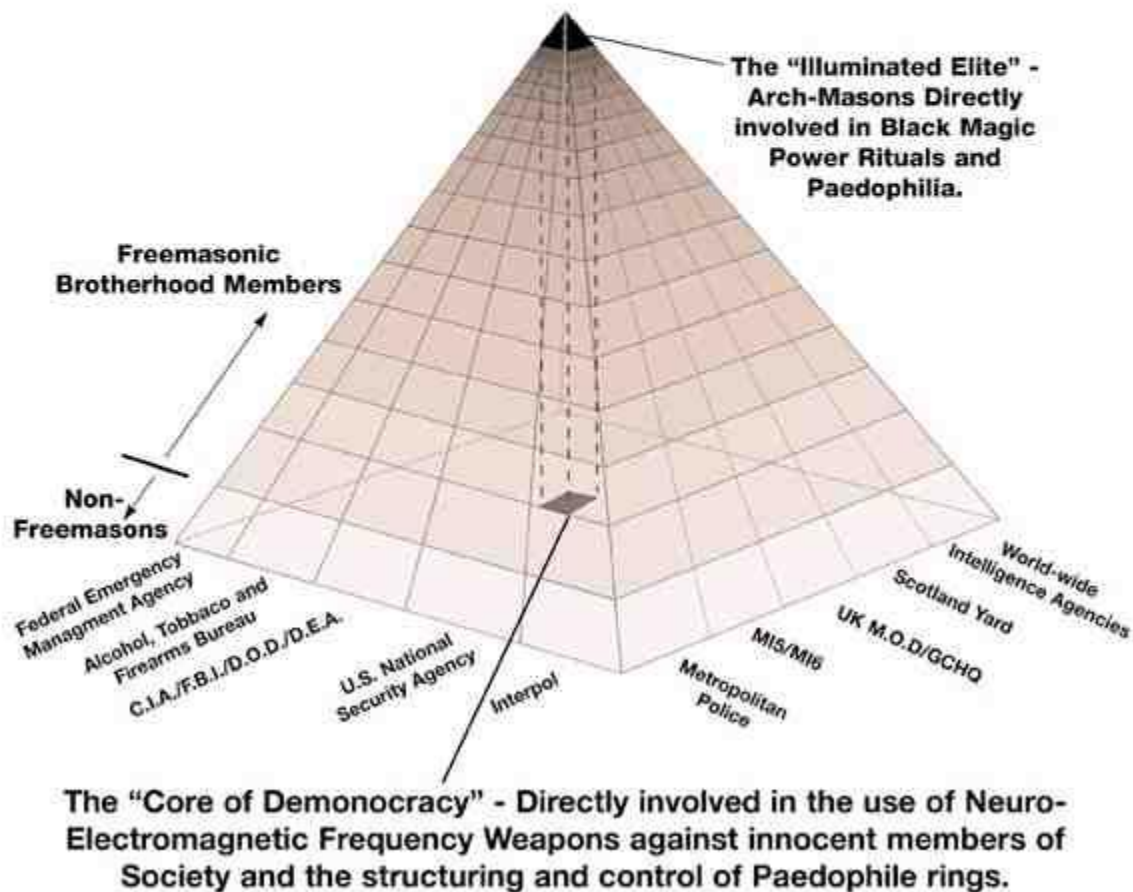

Even so, there are a few who will be fellow Witnesses in That Day, and for each of them I am and will remain Eternally Grateful.

El Aku ALIHA ASUR HIGH.

THE SHADOW GOVERNMENT: ITS IDENTIFICATION AND ANALYSIS

The Freemasonic Brotherhood/Intelligence Agencies Compartmentalised Power Structure

The Freemasonic secret-society network is intrinsically interwoven into all levels of society's structure — banking, business, police, military, politics, legal system, education, mass media, religion, medical and pharmaceutical industry, illegal drug running and distribution, organised crime and last but not least, the major "think tanks" and manipulators of the masses — the intelligence agencies

This is a summary report on those elements of that clandestine organizational network (which we shall label the Shadow Government), which serves as a kind of "parallel government" to the official elected and appointed government of this country. It includes those elements known with sufficient certainty that they can be positively identified, and their known or reliably reported functions described. It is distinctly possible that there are other elements, particularly in the realms of the "Black Budget" and "Special Operations," which have eluded open exposure to date and are not named here.

As with the official government, the Shadow Government has functional branches. However, unlike official government, the purpose of the non-executive branches of the Shadow Government is simply to accomplish various functions, but not to achieve a system of checks and balances, as was supposed to happen Constitutionally between the executive, legislative and judicial branches of the US

Government. That is because the Shadow Government is a creature of a powerful elite, who need not fear being dominated by an instrument of their own creation.

In the Shadow Government five branches may be identified Executive, Intelligence, War Department, Weapons Industry, and Financial Department.

Reporting lines of the Intelligence Branch and the War Department to the Executive Branch are straightforward and obvious. Intelligence exists to provide the Executive Branch with sufficient necessary information to make adequately informed policy decisions. The War Department exists to provide coercive force to carry out Executive policy decisions which *could* meet with public resistance. Special Operations units within the Intelligence Branch and War Department exist to carry out policy directives requiring covert action and official deniability.

The Weapons Industry Branch reports to the Executive Branch, most often indirectly through the War Department and/or the Intelligence Branch (for Black Budget weapons systems).

The Financial Department theoretically reports to the Executive Branch for fiscal policy implementation, but de facto also reports directly to the **International Power Brokers** who have created the Shadow Government. The Financial Department serves at times directly as their instrument of fiscal policy implementation, causing BOOM or BUST as they determine best for themselves.

An analysis of the overall purposes of these five branches suggests that the overall purpose of the Shadow Government is to exercise covert control by: (1) collecting comprehensive institutional and personal information; (2) by establishing national and international policy independently of the established Government; (3) by developing high-tech arms and equipment, and, with these, establishing small, specialized, highly-mobile, elite military units to effect these covert policies, when need arises, without having to rely on the official and "unreliable" Armed Services (whose subservience to the Shadow Government is reasonably suspect); (4) by developing an armed capability to repel any threat to the status quo (including the uncertain ontological, social, and economic impacts of any revelation of the reality of UFO and ExtraTerrestrial presence) through the development of a Star Wars/BMDO ground and space-based surveillance and SDI weapons network; (5) by denying information compromising to the Shadow Government from all those outside "need-to-know" policymaking levels; and (6) by exercising control on the money supply, availability of credit, and the worth of money, through policy decisions made outside of the official Government (BOOM or BUST above).

All of these mechanisms of control serve to preserve or advance the agenda of an international group of pivotal power and influence brokers. That agenda is, according to Senator Barry Goldwater, that "national boundaries should be obliterated and one world rule established." [With No Apologies, Berkley Books, New York.]

These power brokers' most visible unifying instrumentality is the Council on Foreign Relations (CFR) that promotes the transition of Earth from a cluster of Nation-States to one global government [Chairman: Peter G. Peterson; headquarters: 58 East 68th Street, New York, NY 10021]. [In Control, Kerrville, TX: Fund to Restore an Educated Electorate, 1993.] However, one must not underestimate the influence of the Trilateral Commission (TC) that coordinates economic initiatives of the Group of Seven with other "developed countries" vis-a-vis the "underdeveloped world," [Chairman: Paul Volcker; headquarters: 345 East 46th Street, New York, NY 10017]. Neither should anyone misjudge the power of the secretive Bilderberg Group (BG) that concentrates on military and strategic considerations of powerful West European and North American power brokers, [Chair rotates, former Chair: Prince Bernhard of Holland; headquarters unknown; annual meetings rotate, but originally were held at the Hotel de Bilderberg, Oosterbeek, Holland, from where it gets its public name].

David Rockefeller is Chairman Emeritus of both the CFR and the TC, and certainly influences, through proxy representatives, such as Lloyd Bentsen, the Bilderberg Group. [Holly Sklar, Trilateralism: The Trilateral Commission and Elite Planning for World Management; Boston: South End Press, 1981.]

What follows is a succinct identification and description of the constituent agencies in each of the five branches of the Shadow Government.

EXECUTIVE BRANCH

This branch contains the effective policymaking and controlling structures behind the veil of apparent, democratic governmental structures:

(a) Council on Foreign Relations (CFR) (includes both George Bushes, William Jefferson Clinton, all modern CIA Directors, most modern Joint Chiefs of Staff, most modern Cabinet and top Executive Branch appointed officeholders, et cetera.

(b) Tri-Lateral Commission: David Rockefeller, Henry Kissinger, John D. Rockefeller, Alan Greenspan, Zbigniew Brzezinski, Anthony Lake, *John Glenn*, David Packard, David Gergen, Diane Feinstein, James Earl Carter, Admiral William Crowe, et cetera.

(c) The Bilderberg Group, Prince Hans-Adam of Liechtenstein, Prince Bernhard of Netherlands, William Jefferson Clinton, Lloyd Bentsen, et cetera.

(d) National Security Council (NSC), the military and intelligence policymaking and control group for national and international security, which reports directly to the President, its secret 5412 Committee (which directs black [covert] operations), and its PI-40 Subcommittee (aka MJ-12: that exercises policy direction and control of the UFO Cover-Up).

(e) Joint Chiefs of Staff (JCS)'s Special Operations compartment: directorate implements the orders of the NSC's 5412 Committee, utilizing the US Special Forces Command.

(f) National Program Office (NPO) operates the Continuity of Government Project (COG), an ongoing secret project to maintain command, control, communication and intelligence executive centers during an extreme National Emergency by operating *clandestine, secure, underground cities staffed by surrogates for above-ground national leaders*; and,

(h) Federal Emergency Management Agency (FEMA)'s black projects compartment that operates federal preventive-detention camps [often located on military bases or federal Bureau of Land Management lands], *secure underground shelters for the elite during cataclysms, et cetera*.

INTELLIGENCE BRANCH

Serves functions of domestic and international surveillance and of secret police/enforcers:

(a) National Security Agency (NSA) Fort Meade, MD, *monitors and screens all telephone, telegraph, computer modem, radio, television, cellular, microwave, and satellite communications*, and electromagnetic fields "of interest" around the world, and orchestrates information-control and cover-up activities related to UFO secrecy and surveillance of ExtraTerrestrial operations.

(b) National Reconnaissance Office (NRO), Pentagon basement and Dulles-Airport area, VA, controls and collects information from global spy satellites, *monitors UFO traffic entering and leaving Earth's atmosphere, coordinates firing of energy-beam weapons from orbiting Star Wars satellites at selected human ground and airborne targets and selectively at ExtraTerrestrial craft*.

(c) National Reconnaissance Organization (NRO aka MJ-TF), military/intelligence operations arm of the PI-40 Subcommittee, conducts surveillance, interdiction, capture and confiscation of UFOs and their ExtraTerrestrial occupants for intelligence and "International Security" purposes; surveilles and "interacts" with close-encounter experiencers, including occasional physically and sexually assaultive mind-control kidnappings disguised as "Alien abductions" for psychological warfare and disinformation purposes; headquarters unknown, compartmented and dispersed among various elite Delta Force Special Operations units, such as USAF Blue Light, Hurlburt Field, Mary Esther, FL and Beale AFB, Marysville, CA.

(d) Central Intelligence Agency (CIA), commands, often controls and sometimes coordinates the gathering of secret overseas information gathered by spies (HUMINT), electronic surveillance (SIGINT), and other means; carries out covert un*Constitutional* paramilitary counterinsurgency operations and preemptive political pacification projects in violation of international law, as well as counter-intelligence sting operations against foreign agents; engages in *domestic surveillance* and manipulation of the US political process "in the National interest" in direct violation of its congressional charter; operates proprietary "false-front" companies for profit; *conducts a major share of international transshipment of*

illegal drugs, using National Security cover and immunity; and cooperates with NSA's UFO cover-up operations, Langley, VA, and worldwide branches.

(e) Federal Bureau of Investigation, Counter-Intelligence Division, the branch which reputedly investigates, surveilles and neutralizes foreign Intelligence agents operating within the US, but cooperates with the National Reconnaissance Organization in the surveillance of those involved in close encounters with UFOs and ExtraTerrestrials. Now you know PART of why their interest in Akurians!

(f) Department of Energy Intelligence (DOE-INTEL), conducts internal security checks and external security threat countermeasures, often through its contract civilian instrumentality, the Wackenhut Corporation.

(g) NSA's Central Security Service, and CIA's Special Security Office, which respectively spy on the spies and non-puppet citizens alike, and conduct special operations which cannot be entrusted to line intelligence officers, Ft. Meade, MD and Langley, VA.

(h) US Army Intelligence and Security Command (INSCOM), whose assignments include psychological and psychotronic warfare (PSYOPS), parapsychological intelligence (PSYINT), and electromagnetic intelligence (ELMINT), Ft. Meade, MD.

(i) US Navy Office of Naval Intelligence (ONI), gathers intelligence affecting naval operations, public opinion, and has a compartmented unit involved in UFO and USO [Unidentified Submerged Objects] information gathering.

(j) US Air Force Office of Special Investigations (AFOSI) reputedly gathers intelligence affecting aerospace operations, but has a compartmented unit involved in investigating UFO sightings, ExtraTerrestrial contact reports, as well as IAC [Identified Alien Craft] surveillance, and coordination with NRO interdiction operations, Bolling Air Force Base, MD.

(k) Defense Intelligence Agency (DIA) that coordinates intelligence data gathered from the various Armed Services Intelligence Branches: Army, Navy, Marines, Air Force, Coast Guard and Special Forces; and provides counter-threat measures which includes security at ultra-classified installations by the deployment of US "Thought Police." Conducts surveillance, *by remote-viewing and other parapsychological measures*, against penetrations and scanning by foreign or civilian remote-viewers [clairvoyants/out-of-body seers, primarily Akurians], Pentagon, VA, Fort Meade, MD, **but is limited to the Etheric and Deros Planes!** It takes Special Knowledge and Permission to access the Higher Planes and the Depths below Deros.

(l) NASA Intelligence, which gathers intelligence data relating to space flights, sabotage threats, astronaut and reconnaissance satellite encounters with UFOs and ETs, and coordinates the transfer of alien technology to US and allies' aerospace operations.

(m) Air Force Special Security Service, an NSA/USAF joint intelligence operations unit dealing with possible threats to aerospace operations from foreign powers, terrestrial or otherwise.

(n) Defense Industry Security Command (DISCO), conducts intelligence operations within and on behalf of the civilian defense contractor corporations engaged in classified research, development, and production.

(o) Defense Investigative Service (DIS), conducts investigations into people and situations deemed a possible threat to any operation of the Department of Defense *or exposure of any governmental atrocity whether planned or perpetrated.*

(p) Naval Investigative Service (NIS), conducts investigations against threats to Naval operations including civilian/citizen disapprovals.

(q) Air Force Electronic Security Command, conducts surveillance and interdiction of threats to the security of Air Force electronic transmissions and telemetry, and to the integrity of electronic counter-measure (ECM) warfare equipment – and protects HAARP against any ground/air based electronic or other intrusions.

(r) Drug Enforcement Agency (DEA) Intelligence, conducts surveillance and interdiction of drug smuggling operations, unless exempted under "National Security" waivers – which all but those intended to show government 'efficiency' at law enforcement really are.

(s) Federal Police Agency Intelligence, coordinates intelligence relating to threats against federal property and personnel including their High Treasons. NOW you know why Congress will NOT enforce the Constitution unless they need to hide behind it – Obama's illegal presidency being a prime example.

(t) Defense Electronic Security Command, coordinates intelligence surveillance and countermeasures against threats to the integrity of military electronic equipment, electronic battlefield operations and civilian/citizens endeavors at public exposure of abuses, Fort Worth, TX.

(u) Project Deep Water, the ongoing effects of the compromised personnel, sources and methods resulting from the secret importation of Hitler's own Nazi Intelligence Chief, General Reinhard Gehlen, to redesign the US's Intelligence apparatus.

(v) Project Paperclip, the ongoing results of the secret importation of Nazi weapons and aerospace/UFO scientists into US secret military research and development bases.

Undoubtedly, more clandestine units and operations exist.

FINANCIAL DEPARTMENT

Extra-Constitutional funding:

(a) Federal Reserve System, a cartel of private banks overseen by elite super-wealthy financiers, such as the Rockefellers, Mellons, DuPonts, Rothschilds, et cetera, that *dictates* to the Government the flow of money, worth of money, and the interests rates).

(b) CIA, self-financing via operation and/or control of most of the international drug trade in heroin, cocaine and marijuana, as well as "front" business enterprises as a source of cash for off-the-books covert operations and the purchase of exotic munitions, strategic bribes, and elimination (execution) funds.

(c) Department of Justice, self-financing via confiscated cash and valuables from "targets of investigation" to finance "special projects."

(d) Special Forces, self-financing via self-use of confiscated "booty" from covert military operations to fund other clandestine operations.

What conclusions can be drawn from this preliminary analysis of the structure, functions and operations of the Shadow Government?

First, the Shadow Government is a very large, well-organized, skillfully camouflaged, parallel power structure. History suggests that it has served its masters well, and that its predilection for operating out of sight and notoriety, if not in an outright clandestine fashion, is exactly how its masters want it to function -- *not drawing attention to itself*, manipulating power behind the scenes and accomplishing by covert operations what cannot lawfully or politically be accomplished or tolerated, out in the open.

What should be the attitude of the informed citizen to the Shadow Government?

Since it thrives in the dark, we should shine the light of full disclosure on it. Citizens can demand the end of Congressional practices of allowing "Black Budget" items; the end of unpublished secret Executive Orders and National Security Directives; the end of the practice of indefinitely- sustained Presidential Declarations of National Emergency (as is currently in place); the end of Federal Reserve Notes and the return to the gold standard to back the dollar; the end to governmental domestic spying on its own citizens; and extremely severe reduction (on the order of 90%) in the number, staffing and scope of the endlessly proliferating Intelligence agencies – which are an anachronism since the Cold War ended – and an end to CIA and DEA collusion in allowing a continuing stream of drugs to pour into this country.

Akurians, remember politics is only ONE of our concerns in spite of the fact it infests and infects virtually everything else we are required to consider: demonisms, racisms, Anunnaki, Nefilim, Grays and other ExtraTerrestrials and OWG planned global exterminations among them.
