

The BIG Review – Sunday April 14, 2013

We've been through many Invocations and Trainings since we've started doing them a few years ago in our nightly blasts and Sunday Trainings. The most excellent thing about all these trainings is they build on things we learn and have learned, and they ALSO stand alone and work very well all by themselves. Each and every skill could work all by itself for TREMENDOUS success when properly applied!

Specific Skills

Perhaps some have forgotten how far we've come. This is a good time for review of skills we've learned and take a Virtuous Moment and review what they do in your thinking and in your mind as I mention them. There's more True Spiritual How-To in these Lessons than there is in the rest of the world with the possible exception of the Vatican Library, but some of the information contained therein is written in languages that don't even exist anymore. None of those books, information, and scripts were ever translated into English. This is a tremendous list of things to consider and for the neophytes, most of the training is available online at AkurianDocuments.

1. Angels – studies with them and Four Horsemen
2. Astral Projection – Akurian practice
3. Astral Projection – General skill from the AED
4. Binding and Loosening
5. Blue Swords and using them
6. Bodes of Hell Trainings
7. Bodies of Light made from the Depths of Hell
8. Bodies of Light made from the Planes of Heaven
9. Bodies of Damnation
10. Body of Light
11. Body of Light – charged with The Most High
12. Body of Light into the Future
13. Circle of Fire
14. Clairvoyance
15. Creating an atom
16. Cursing a City
17. Cursing and Blessing – individually, in group
18. Daughters of Elisha, Swords of Aku
19. Direct Targeting – weather (hurricanes), HAARP, Moon – personal targets and team targets
20. Discerning – like/don't like, good/bad, Holy Law/Not Holy Law, Righteous/Not Righteous, Evil/Good, and whether it interferes with anyone becoming like The Most High
21. Discern Enhanced – the strengths and weakness of: the enemy, the team, and ourselves
22. Discern Hands, Feet, and the White Light with Square on big toes
23. Discerned – Politicians, Dead/Alive, Nephilim/Annunaki
24. Ethric Body left in the sun
25. Flicking Energy
26. Flying in the Spirit
27. Ghost Troops – getting them, and using them
28. Going up and down the planes
29. Golems
30. Health and Wellness – personal and otherwise skills
31. Hell Energy Invoked and used
32. Holy Law – writing, reviewing, and using

33. How to clean and re-charge including the tensing
34. How to invoke in our own name, Righteous Authority
35. How to write an Invocation
36. Know the difference between Knowledge and 'belief'
37. Know what you think – Like it Don't Like it and How Much.
38. Learning Leadership skills
39. Learning our own new wants – Teleportation
40. Learning the Elements
41. Learning to command in our own Authority and get Obedience
42. Look to the Innate for solutions
43. Moon Goons – Sun Charged
44. Moon Goons for Communism Detection
45. Multiple Bodies of Light
46. Neutrinos
47. Octahedrons
48. Our own Cherubs
49. Personal Projects with spirit applications to them
50. Personal protectives – the octahedrons, white light, et cetera
51. Personal Studies – AED, Training, Reading
52. Practice AP – learning, doing, and discerning of it
53. Practice Discerning EVERYTHING
54. Prophecy – learning to do it and doing it
55. Prosperity
56. Psychometry of things
57. Pulling Energy(ies) for any number of things
58. Reading a City
59. Reading Color Energies and understanding them
60. Reading the news and applying Akurian endeavors to the Damnations
61. Redirecting Energy – Akasha free enterprise as an example
62. Reincarnation
63. Remembering Dreams
64. Sensing the Elements
65. Speak unto the moon
66. Speak unto the sun
67. Stones
68. Sun links various uses
69. Super sense – development and usage
70. Survival Practices
71. Swords and Shields of Aku
72. Talismans (We haven't studied Amulets, Sigils)
73. Telekinesis – dissolving/creating clouds, clocks moving slower
74. The Art of War – development and skill
75. The spirituality of word studies – example Greed
76. Time Lords
77. Understanding ENERGY, frequencies, momentums
78. Using "their" energies against them
79. Using Heavenly Energy(ies)
80. Using Hell Energy – Hell Balls
81. Using the rocks, sun, moon
82. Virtue
83. We've gone to hell and back
84. Winds and Servant Winds

Over the years we've been doing these TRAININGS, it is worth noting and considering each and every one of them could be like a 3 Credit Hour College Course that has a Lab Requirement. Each and every one of the topics could have many books written. And, when all the subjects and topics are all added up, they are an equivalency of much more than a Ph.D. degree.

It takes an average of 128 hours to get a Bachelor's Degree, 30 hours and a thesis OR 36 hours in all for a Masters Degree, and about 18 hours plus a dissertation for a Ph.D. Think about this and the profound nature of what we're about, what we've learned, and how we need to continue doing these things in our efforts and endeavors to deal with the consequences of the WAR we are in AND recruit and grow as The Anointed of God, Pathfinders of Elijah, Inc at the same time.

Specific Blasts

With that in mind, take some time to review some of the things in your mind we've targeted as I mention them. Most of the targets were hit with very few of us by comparison to the world population of nearly 13 BILLION PEOPLE.

1. 7 Swords on Tyranny
2. Absolute Truth
3. Akurian prosperity
4. ALL Race-Mixing
5. ALL Religions
6. ALL Socialist Organizations – including the 501C organizations
7. Central Banks
8. Communist Party USA
9. Conversion to Free Enterprise
10. Corporate Manipulators
11. Cush out of Canaan
12. Dealing with Hell Energies
13. Dealing with Politics and Religion – Handprints and Hits
14. Democrats
15. Deprivation and Binding
16. Efforts on the Constitution
17. Exposing things for the demonism they are
18. Food and food staples affordable
19. George Soros and ALL ilk like him
20. HAARP
21. Hammer on Voters
22. Hell Balls
23. Hurricanes Apart
24. Individual hammers by Virtue
25. Individual projects using the skills we've learned specific targeting
26. Individual targeting and the skills to do them with
27. International monetary funds
28. Invocations with Neutrinos
29. Losses by the corporate elites
30. Major Media
31. Masons, Knights of Columbus
32. Monopolized commodities
33. Multiple belly balls
34. Multiple bodies of light in the various targets we've hit
35. Nations and their economies

36. Obama and cabinet
37. Rain for the southwest
38. Republicans
39. Restoration of America
40. Seven Swords activities on the political front.
41. Sheriff Arpaio, Akurian support
42. U.S. Senators
43. U.S. House of Representatives
44. Socialism
45. Socialists and Socialism
46. Supreme court justices
47. The Annunaki/Nephilim
48. The Archangels, Winds, Binding and Loosening
49. The Birth Certificate
50. The Blessings on Gary Johnson
51. The Cardinals
52. The charge to remove spirit guides
53. The consciousness of consciousness and the jew not jew thing
54. The Curse of El Aku on Levi and Judah
55. The effect of burning as we've done on the moon
56. The federal reserve
57. The golems in the HAARP installations
58. The hammers done with Blue Swords
59. The impact and effect on the political parties themselves
60. The impact in the earth
61. The impact on the Washington monument
62. The Individual States
63. The individuals hit with moon goons
64. The Jesuits
65. The moon goons of the cities
66. The moon goons of the Supreme Court
67. The Muslim brotherhood
68. The Rothschild's suffer losses
69. The study of the Elements
70. The Tea Parties
71. Their money and funding doesn't work
72. Things we've Aku Cursed – the politicians and many others
73. Voter fraud

Successes and Failures

As mentioned earlier, many of the skills we've learned stand very well on their own for victory and victorious purposes. It's a matter of applying which skill, matched with what outcome, is best for any particular endeavor. This is much like a spoon, shovel, and a backhoe. If you're going to dig a hole to plant a seed, a spoon is most likely the best choice of the tool to use; using a backhoe could create serious problems. If you're going to need a hole dug to plant a tree, while a spoon can be used, the best tool for the job most likely is a shovel. If you're going to dig a hole to put in a swimming pool, while a spoon and a shovel can be used, the best tool for the job is a backhoe.

It's very clear we've had some terrific successes, but we've also had our failures. AND by our own actions, and standards, we've proved the point – if you know yourself, but don't know your enemy AND/OR you don't know yourself, but know your enemy, you're going to win and lose. From an Akurian

point of view, we're not winning like we want to do and we lose! None of us wants these losses to continue. We need and MUST look at and closely examine some of the reasons why it happens. And YES, we have MOST EXCELLENT tools to use.

Neophytes

While we'd ALL love everyone to be equally skilled in the 82 things mentioned earlier, it isn't going to happen. There are ALWAYS going to be differences in Life Experiences, Knowledge and Knowing Individually and Collectively, with the Skills themselves, and the applications and usages of them. But, we cannot keep dealing with things on a review-to-review always on looking backward basis. We MUST look forward and use the skills we've learned to do without creating a problem 2000 years from now.

Consider two things as examples: 1. A 16 year old licensed driver, and 2. A Medical Doctor.

As a general rule, Most 16 year olds have gone through some kind of training (either with someone who's taught them or they've taken a driving class) to learn how to drive a vehicle and then practiced with someone else in the car to get the necessary BEGINNING or FOUNDATIONAL experience. Understand: it's beginning experience by all stretches of the imagination. When they meet the criteria, they get a license and often they're able to drive alone. To think they know everything about driving at age 16 isn't possible. There are ALWAYS nuances to experience. But they are competent enough to be on the road at the same time there are experienced drivers also on the road.

But what is a driver's license? It's the necessary thing someone needs to have to be on the road, according to the established criterions to be safe to drive. In many ways, having a drivers license is somewhat also like a right of passage for kids and the fundamentals are what they are to be a driver on the road as licensed drivers. While we'd all like everyone to have every nuance of experience for driving, 16 year olds aren't any different than experienced drivers when it comes to accidents. Experienced drivers have them too.

A medical doctor has had YEARS of education in school and applied experience with their residencies. What they get when they're done is the BASICS of how to deal with medical issues. It takes many of them YEARS of experience in being a doctor that they don't get in medical school in order to be a good one. Some of the best teachers for doctors are the patients they're supposed to be helping. The foundation of education they got in school is just that – the foundation. They must continue to learn as they are in the business of being doctors. There are ongoing requirements, which also include additional formal continuing education in order to maintain their licenses.

Some Neophytes are going to come forward equivalent to 16-year-old drivers and others are going to come forward like medical doctors. While Neophytes need and must continue to develop themselves within the time constraints they have available, SINCERITY and DESIRE to do the right thing because it's the right thing to do are Strengths not Weaknesses. They can and are keeping up with those of us who've been around for a while and those who will look at the results of our endeavors can easily discern it.

Discerning

In addition to the development and developing Astral Projection skill is the Art and Practice of DISCERNMENT! Bobby has repeated the importance of Discerning like a broken record. The behavior of

the skill is like the other side of the Astral Projection coin. Our needs for turning up our Discerning and Discernment skills are immense and we MUST get a lot better at it. We must KNOW ourselves AND the enemy to win. AND, we MUST GO TO WAR WITH THE TROOPS WE HAVE! We're ALWAYS better as a Corps with more people involved than we are without them!

1. The first thing to any discernment is to describe it, the thing, situation, et cetera. The description at first is going to be like a rough sketch of a drawing that has to be defined, filled in, et cetera. Sometimes it takes some time to get a handle on a situation and describe it with the proper details.
2. The next step is the "like"/"don't like" or the "good/bad" of it.
3. Following that is Holy Law/Not Holy Law – and remember we are in a state of WAR!
4. Is it Righteous/Not Righteous – and remember we are in a state of WAR!
5. After that comes the Good or Evil – and remember we are in a state of WAR
6. Next on the list is the complete discernments involved that may have the 8 parts:
 - a. If individual – their strengths and weaknesses
 - b. If group – their strengths and weaknesses
 - c. Our group – strengths and weaknesses
 - d. Our individual – strengths and weaknesses
7. Then we culminate with the dynamic of doing things where we can't replace the Damnations of 'their' greed and dhimitude with an Akurian flavor of it. We do not want to get in trouble with The Most High in the process!

Over the last couple of months (since the January 27th Training), I've encouraged everyone to examine things from a more Complete Discernment, which is to do things on the Strengths and Weaknesses of things. The lack of responses clearly shows that it's HARD to do AND IT IS! It's quite understandable as to the reasons why because none of us grew up thinking this way and our education and experience didn't specifically help. Now we are in the situation we MUST think this way in order to win and not fear the battles. We're going to do it with people who don't have the same education and experience as we continue to bring new people in because of our recruiting endeavors. And, if we do things correctly, WE WILL WIN!

Take the time and think through "their" (the enemies) Strengths and Weaknesses in terms of what they are doing to make what "they're" doing work. It's never the case these things are limited to the Like/Don't Like, Holy Law/Not Holy Law, and Righteousness/Unrighteousness.

When something is perpetrated, there is ALWAYS a Strength behind it. If the endeavor wasn't or didn't have a Strength of some kind, it wouldn't be done. Be encouraged to WRITE it/them AND practice with a Partner down while you're learning – this IS the shortcut to "getting it"! Working with a Partner will help you stay the course for the specifics of the task to DISCERN and you'll BOTH learn. It's VERY easy to go back into things like the descriptives without the help of a partner. Even writing it down and working with a Partner, this is still VERY HARD to do. We didn't grow up this way and we certainly weren't taught to THINK this way! BUT, we MUST start thinking this way or we will lose!

Next, take the time and think it through "their" (anything perpetrated by the enemy) Weaknesses. There is no such thing as a stick with one end and there is no such thing as a Strength without a Weakness whether it's yours or theirs. Again, be encouraged to WRITE it/them AND practice with a Partner down while you're learning – this IS the shortcut to "getting it"!

NOW, Take the time and think through YOUR Strengths in relationship to the given thing you're discerning and WRITE it/them down. Take the time and think through YOUR Weaknesses in relationship to the given thing you're discerning and WRITE it/them down. You need these things to facilitate your own learning curve. You MUST do this! Not doing these things WHILE YOU'RE LEARNING is going to mean not less than two things:

1. Your discernment isn't going to be complete
2. And from an Akurian point of view, you'll lose and fear the battles! We're fighting this war on not less than 16 Fronts and 1000's upon 1000's of Battles. ALL these things being perpetrated are going to result in HORROR BEYOND HORROR unless WE can stop them. If we don't do this INDIVIDUALLY and as a GROUP, we will lose and FEAR it.

Discerning Practice

Coventry

Read the link http://en.wikipedia.org/wiki/Coventry_Blitz

Years ago during World War II, the allied forces figured out and solved Enigma. Enigma was the code Hitler and Germany used between and amongst themselves. The TIMING of when the Allied Forces figured it out and cracked the code was when Germany targeted Coventry. The Wikipedia entry regarding the subject contains this information.

To quote from the article, "In his 1974 book *The Ultra Secret*, Group Captain F. W. Winterbotham asserted that the British government had advance warning of the attack from Ultra: intercepted German radio messages encrypted with the Enigma cipher machine and decoded by British cryptoanalysts at Bletchley Park. He further claimed that Winston Churchill ordered that no defensive measures should be taken to protect Coventry, lest the Germans suspect that their cipher had been broken.[19] Winterbotham was a key figure for Ultra; he supervised the "Special Liaison Officers" who delivered Ultra material to field commanders."

"In one night, more than 4,300 homes in Coventry were destroyed and around two-thirds of the city's buildings were damaged. The raid was heavily concentrated on the city centre, most of which was destroyed. Two hospitals, two churches and a police station were also among the damaged buildings.[9][10] The local police force lost no less than nine constables or messengers in the blitz.[11] Around one third of the city's factories were completely destroyed or severely damaged, another third were badly damaged, and the rest suffered slight damage. Among the destroyed factories were the main Daimler factory, the Humber Hillman factory, the Alfred Herbert Ltd machine tool works, nine aircraft factories, and two naval ordnance stores. However the effects on war production were only temporary, as much essential war production had already been moved to 'shadow factories' on the city outskirts. Also, many of the damaged factories were quickly repaired and had recovered to full production within a few months.

An estimated 568 people were killed in the raid (the exact figure was never precisely confirmed) with another 863 badly injured and 393 sustaining lesser injuries. Given the intensity of the raid, casualties were limited by the fact that a large number of Coventrians "trekked" out of the city at night to sleep in nearby towns or villages following the earlier air raids. Also people who took to air raid shelters suffered

very little death or injury. Out of 79 public air raid shelters holding 33,000 people, very few had been destroyed.[13]"

Understand, the Allied Forces figured out the code, but they SACRIFICED Coventry to maintain the integrity of the knowing what the code was and everything about it. AS UGLY as this situation is, and it's DAMNED UGLY, we're going to have Collateral Damage in our endeavors too! While NONE of us "like" the situation, it is a reality in and of War!

The BEST way to minimize impact of Collateral Damage is to make sure the Discernments are complete or as complete as they can be and they MUST include the Strengths and Weaknesses.

When it comes to YOUR Strengths and Weaknesses, you have to KNOW yourself. This is also something you're not going to want to broadcast so your ENEMIES can KNOW where you are in addition to what "they" already know. Understand the Enemy (ies) has a better handle on you than you do yourself. Don't think they don't! Don't even consider they're that ignorant because the moment you do, you've ALREADY lost the battle and it's only a matter of time you'll FEAR the battles AND they'll win on YOUR OWN ENERGY!

So when it comes to your OWN individual Strengths and Weaknesses, DON'T BUY AN AD especially over the phone and/or email and don't ask/require another AKURIAN to buy an AD about their Strengths and Weaknesses over the phone and/or email either!

When you get the hang of Discerning in this way, DON'T BUY AN AD about it! MAKE NO MISTAKE, the ENEMY is going to KNOW that you've figured it out like Germany would have over Coventry if you do. They are going to switch "their" plans to foil you, your understanding, endeavors, plans et cetera, and they will defeat you. As much as none of us would like to admit our own failures, review some of them in your own mind and you're sure to find Strengths/Weaknesses problems.

There is much responsibility on the Seniors to facilitate Neophyte endeavors, including DISCERNMENT and DISCERNING SKILLS! It REQUIRES EXCELLENCE in DISCERNMENT to WIN and not fear the Battles. And if Seniors are not prudent about these DISCERNMENT issues, the Neophytes are going to point out your weaknesses to you in very short order. When they do, be glad because they'll at least give you clues; the enemy won't. Make no mistake. Some Seniors have ALREADY exposed their weaknesses! If you think it's you or not you, it probably is because we're human.

Safest Practices

There are many things to practice with that are readily available.

Pictures/Posters/Graphics – the email of the dog picture and the boy I sent, are two examples. There are 1000's of others available all over the place. When you watch or read the news and/or hear a story, practice the Strengths and Weaknesses on it. The articles and videos by Alex Jones are great examples. A good one to do is the Joel Osteen fiasco.

If you "like" something, TEST it for the Strengths and Weaknesses of the reason why. If you "don't like" something, TEST it for the Strengths and Weaknesses of the reason why.

Everything that is a Strength, can be made into a Weakness. Everything that is a Weakness, can be made into a Strength. And the enemy is sure to use anything and everything they can AGAINST you if you remain ignorant about them. And we would do the same thing.

ALWAYS apply the strengths and weaknesses tests for your OWN individual tests to WIN! NONE of us wants to lose. The skills we've learned are WINNING and most excellent skills. Each and every one of them can beat our enemies if they're applied correctly! The difference with a team and/or in our Group Endeavors is that we can have a more forceful impact on our targets to get results much quicker. This is why NEVER to Add-To or Subtract-From the Orders or Directives once they are established.

The Cautions

DON'T LET YOUR EMOTIONS BETRAY YOU! You must discern things you "don't like" as well as things you "like". The enemy will take things you "like" and things you "don't like" and make them be the cause for your FAILURE! It doesn't matter what it is. Strengths can become weaknesses and weaknesses can become strengths. The one thing "they" don't count on is that you'll figure it out!

The application of these Discerning Skills are not and will never be excuse to go below the line and find the faults, lay the blames, or point the fingers at any other Akurian – Neophyte or Otherwise for their WEAKNESSES that cause Divide and Conquer between and among us! Don't let that happen! Don't let the APPEARANCE of that to happen because when you do you're coming DANGEROUSLY close to treading on someone Sacred Ground and such action isn't True and Righteous Akurian!

Conclusion

And here's a real big secret for Neophyte and Senior P.K's alike. You haven't discerned the Strengths and Weaknesses properly if you can't figure out the way to win with what you already and currently KNOW. When it comes to the Righteous Powers and Holy Authorities we have as True and Righteous Akurians and they're properly applied, Seniors and Neophytes alike, we will not Lose nor Fear the Battles! Learn from your Successes and your Failures and DISCERN them from a Strength and Weakness perspective too!

From the NR 11 – 01 03 ""And teach them first and always: failure is of their own doing, seek the innate for cause and reason; delay is the Law in action, removing barriers set long ago that must be overcome with force and applied energies.""

Discerning Tool

For any problem, write down the Who, What, When, Where, Why, and How of the thing Discerned.
Write it down.

Circle the YES or the NO

Do you "Like" YES/"Don't Like" NO.
Are there other considerations?

Is it "Righteous" YES? "Not Righteous" NO?
Are there other considerations?

Is it "Good" YES/"Bad" NO.
Are there other considerations?

Is it Good YES? Is it Evil NO?
Are there other considerations?

Is it "Holy Law" YES/"Not Holy Law" NO.
Are there other considerations?

Which Holy Law(s) is/are involved or not involved?
Write it/them down

Strengths and Weaknesses Discernment

The Strength – theirs

Your Strengths

The Weakness – theirs

Your Weakness
