

# Training – Questions/Answers

Subject: June 30, 2013 Training - Questions/Answers

## **Holy Law**

### **Rules for Tonight**

Tonight we're going to do something different because there are questions people have. In order to do so this way we have to have some rules. Everyone needs to get a piece of paper and something to write with because it's very likely that many questions will come up. We'll need to be courteous to one another in the process of asking and getting the answers. So, when and if you have a question and it isn't your turn, write it down so when it is your turn, you can ask. It is important that no one hoards the conversation and the exchange of information because it's for us all. This isn't a two-way conversation with ONLY the asker and Bobby. If people start stepping over one-another, Bobby, Pete or I will require people to STOP talking so please stop. Do your best to STAY on the issue and on topic; we'll discuss other issues another time or one-on-one. It is Holy Law to talk about Holy Law. Some answers will go beyond the scope of this Training and most probably will require one-on-one follow up. This must also be understood and complied with in tonight's training session.

Tonight we're going to comply with Holy Law by talking about Holy Law.

Our job as Akurians is ALSO to JUDGE! Our Judgments must be righteous and true and on Holy Law. We can and MUST JUDGE. **The Most High is going to ask us about it if we don't!**

Akurians are ALSO priests and sometimes we are required to BREAK and/or VIOLATE the Law! That some of you haven't been brought up to speed regarding this VERY important issue IS beside the point. Each and every Akurian with a seal IS a priest or priestess and sometimes we have to do our jobs in Violation of Holy Law.

### **Akurian Instructions**

The request is to write down your questions, comments, and concerns, and we'll take them in order of Seniority.

### **The questions**

I'm going to start by asking Bobby a few questions since he is "the judge". I'm going to ask the questions one at a time and Bobby will answer. At the end of the questions, which I will state when we're done, we'll go down the list and people can ask their question. Understand, that each and every question could probably have books about them so take the time and think your questions through and ONLY ask

## Training – Questions/Answers

one – the one that's most important to you. This will give everyone an opportunity to get a question asked and answered. If you still more questions, email and we'll get the answers.

1. How do you judge an Akurian who violates any of the 613 Holy Laws such as eating the wrong food (pork and shellfish) or working on the Sabbath in violation of Holy Law?
2. I know you've eaten pork and shellfish and you've worked on the Sabbath as a musician; how do you deal with this yourself as a violator of Holy Law?
3. How are you going to judge Akurians who have deaths of collateral damage and innocent people even if in order to bring down the world's population as we are required to do? And how are you going to judge Akurians who don't make the righteous judgment?
4. How would you judge those who crashed in the Andes and ate their fellow passengers to stay alive?
5. How do you judge someone who killed someone as the best option to put a person out of serious pain and misery? Does loved or enemy make a difference with respect to your judgment? Young or old?
6. How do you judge people for having used stem cells to heal? How about stem cells that are from aborted fetuses?
7. How do you judge the children who commit the horrendous acts of prostitution to eat? How do you judge a person of age who prostitutes themselves to eat?
8. How do you judge a farmer who can only grow Genetically Modified Food because that's all the Bankers will loan for and that's all the buyers will buy? How do you judge when the seed they can buy has human DNA in it that has the essence of Cannibalism of us by eating it?
9. How do you judge someone who must work on Sabbath like police, hospital workers, electric company workers, restaurants?
10. How do you judge a "harmed one" who still has homosexual relations? Can they become Akurians if they are?
11. How come there are ghosts if when we die there's heaven, hell, and repose and that's where people are supposed to go at death?

Thank you all for GREAT questions and for the courtesies involved.

The session is available to listen to online. <https://www.freeconferencecall.com/mediadownload.asp>
