True Akurians must be and remain both aware and cognizant of all Creation! Too often we project into the Planes of Heaven and Depths of Hell without a thought as to WHERE we are in the vast expanse of Creation. Think about that! Akurians direct, bind, loosen and raise general Hell with powers and forces all the time – often with what an outside observer would call "miraculous" results – and we do it with near impunity. So WHAT makes such a major difference between Akurians and everybody else chanting their rituals, singing their hymns, bellowing their sermons – to abject and perpetual failure – and the many direct hits, hand prints of clear influence and our own share of failures?

One HUGE difference is the majority of us are Proven Knowers of The Great Testimony of The Most High, but that alone doesn't guarantee success when we jackass, regardless of the reason or how minor the deviation. *The more simple the Invocation the more exacting the procedure.* We account our failures upon our own head just like we do our successes. The Most High is there, and has provided the few of us with True Righteous Power and Holy Authority, but He will NOT permit any deviation whatsoever from His established processes and procedures. Only the Physical Earth Plane may be altered with respect to TIME, and that only by proper preparation and process.

For instance, can we dissolve a cloud ... that may be several miles away ... in only a few minutes? YES WE CAN! Well now, if we can DISSOLVE a cloud, can we CREATE one? Again, YES WE CAN! But for most of us creating a cloud takes much longer, and much more energy and application than dissolving one that already exists as an act of nature.

Why that TIME difference?

Simple. Our command to "create" must first gather or formulate the materials. In this instance water in sufficient quantity to produce visible vapor. And right there APPEARS to be the big immediate factor. BUT IT IS NOT! While that process will work – eventually – it has more DELAY than production.

And WHY is that?

When we attempt to create a cloud, we're in the habit of attempting to play the tuba from the wrong end. Were we wiser, before we start making water vapor we would determine the ACTUAL FINISHED SHAPE of the cloud we intend to make. The next time you get a few minutes and a clear space of sky, try it! Creating a FINISHED cloud already has the set energies, forces and processes to produce the visible vapor; and THAT should cut our PERSONAL energy requirements to an extreme degree. It won't take very long until you can see a vapor streak IF and only IF you determine the shape of your intended cloud at the outset.

To verify, there are some in this Session that were present at Command Marshal General Peter K. Shams-Avari's and Command Marshal General D. Chylon Budagher's home here in Albuquerque, a few years ago. Brigadier Kathryn A. Malone, who turned out a terrific meal, being one of them. General Budagher, Brigadier Malone and myself were on the East patio, it was early evening, just turning dark and a bit of dark clouds and lightning beginning to form on the heights of Mount Sandia. We'd seen a lot of that over the tour, dark clouds and lightning, but little if any rain and nothing like the rainfall we needed. Lots of lightening with little thunder ... this time with The Most High speaking with the thunder. He directed us, the Akurians, to end the current drought.

It seemed simple enough, General Budagher stood up, reached out full length with her arms, palms facing out, and began to slowly spin counter-clockwise. Within a few minutes the storm over Mount Sandia moved to the north, still beyond the horizon, then to the west, and then came roaring across the West Mesa, Rio Grande River valley and up the heights directly over Shams-Avari's and Budagher's home! The distance across the West Mesa to the home being about fifty miles, not counting the circuit around the north and beyond the horizon; and it took only about an

hour or less from start to finish! It was one hell of a heavy rainstorm, lots of wind but not much destruction, and rain upon rain. The weather pattern continued for several days until the drought was eliminated for a year or so.

Acting on Orders from The Most High seldom has any failures and those always attributed to jackass whether injecting nonsense or failing to obey and fulfill His Instructions.

Then sometime prior to that, General Budagher and I put a series of rainstorms together to snuff the EIGHT out-of-control "must burn" fires the government mandated around the Nation, one of which burned about half of the City of Los Alamos, including a field where radio-active materials had been trashed. Of course the government 'tested' the smoke and didn't find any airborne radio-activity: because they took their smoke samples three to four days AFTER the area had burned! Typical government jackass.

How did we do these two rain makers?

We used the materials – water – and energies – electricity, temperature and air pressure that already existed. Just like nature does if not jackassed with the likes of HAARP.

Most people are ignorant of the fact that every drop of rain must have a speck of something – dirt of some kind, ice will do – to form around. That is all part of the natural process. Since all that was already present and available, we simply set the energies to accomplish everything else, temperature and air pressure as required, and water to obey the natural forces. We simply directed those materials, energies and atmospheric conditions by selecting the area – in this case the whole of the Western United States, Southern Canada and Northern Mexico – commanding RAIN – with the application of Black Fire! And we did it with a one word command, "RAIN!"

Some of us present did what would be called the exact opposite when back in 2010 we took a Cat-4, Hurricane Earl, ready to be declared a Cat-5, apart and into a summer squall in about 48 hours. Meteorologists the world over – especially those at HAARP – are still wondering what the hell happened. Those at HAARP know the Akurians did it, just like they know I burned their damned Gakona, Alaska, site. And THAT is just a sample of what we have in store for them!

Energy! Force! Controllable Power.

That's what we're talking about.

Today, we have a historical political situation of the worst kind since civilization began on this planet. We dare not divert our attention from that situation or we are going to be enslaved and executed in THIS generation, eliminating any opportunity of being the Testimony of The Most High until Shiloh.

As I said before, if for THAT reason alone, the Akurians MUST develop more FirePower *and learn to use it effectively* BEFORE all Hell boils over the landscape. Fully empowered, the Akurians, can rewrite the entire script, and put our own Controlled Hell when and where we want it. But nobody – as in nobody – including The Most High is going to do this for us. This is OUR job, OUR responsibility, OUR duty. And I damned well intend to make the most of it.

In order to do that, we must start at the bottom, and make ourselves a solid foundation. Right here on Earth. The best ability we have to do that is our **Super Sense**: Never leaving our body at all, just reading energies and forces and their origins and sources. A couple of weeks ago I taught you about your **Super Sense** and gave a short course on how to use it. We're going to go through that same basic training again, but with some far-reaching targets.

ARE THERE ANY QUESTIONS?

When I command it – and NOT before – I want each of you to form a Body of Light within your own self for the sole and exclusive purpose – that is a critical point – for the sole and exclusive purpose of reading the energies and forces around you regardless of where in all Creation they are from. You are NOT going to project anywhere. **NEVER EVEN ATTEMPT TO PROJECT WITH YOUR SUPER SENSE!** Even out as far as the clothes you're wearing. When I give the order to proceed – and NOT before – make a Body of Light within yourself for this sole and exclusive purpose. Once you make yourself into a **Super Sense** you can discern all Creation.

This is a TEAM EFFORT! Run ahead or fall behind and you are going to jackass. But be warned, I'm more than a little tired of such jackassing and I've put some real disastrous wrappings in place for those who insist 'their' efforts are superior or more important and will NOT work as a TEAM!

Once we get everybody on the same page, and hopefully nobody will go jackass on us, we'll run a self-test and then proceed to the prime objective.

Akurians, prepare!

Akurians, on my command:

Close your eyes, open eyes will distract from your endeavors.

Form a Body of Light the exact size and shape of your physical body.

Keep your eyes closed.

Now, endow your Body of Light with your physical senses on my order:

1st, endow your Body of Light with your own consciousness.

Keep your eyes closed.

2nd, endow your Body of Light with perfect, unlimited vision, even if you wear glasses.

Keep your eyes closed.

3rd, endow your Body of Light with perfect sense of touch.

Keep your eyes closed.

4th, endow your Body of Light with perfect sense of taste.

Keep your eyes closed.

5th, endow your Body of Light with perfect sense of smell.

Keep your eyes closed.

6th, endow your Body of Light with perfect sense of hearing.

Keep your eyes closed.

7th, bind your Body of Light to retain all these senses.

Keep your eyes closed.

Now with your eyes closed, attempt to see your surroundings as you would with your eyes open. Don't strain, let your charged Body of Light tell you – and if you're relaxed enough and not out somewhere in the wild blue yonder, you'll get a SENSE ... that's right ... SENSE of your surroundings that is beyond the understanding, comprehension, familiarity ... whatever you want to call it ... of the same area when seen with your physical eyes.

THAT is the mind-blower! To SENSE over and above any other perspective. All your physical senses: consciousness, sight, touch, taste, smell and hearing are merged into one Super Sense! Expanding the capabilities of this Super Sense is all you're going to do. Your Body of Light is going to remain right where it is, inside you.

You should be feeling all manner of energies and forces, some varying in temperature – some slightly warm and some slightly cool – and at the same time. If you feel as though you are floating ... you're doing things right!

Just for the hell of it, since YOU are as much a part of Creation as anything else in it, and without leaving your physical body, attempt to absorb some of that Universal Energy, any of it that feels good. Reject anything that doesn't. And for a moment, just float, and let those energies and forces tell you where they are from – and instantly you will know WHERE you are in all this vast territory. There's no words to explain it, just an understanding of it. And an immeasurable amount of energies you can use as FirePower!

Enjoy that for a few minutes, and KNOW you can get back to this **State of Spirit** any time you want to.

Now, each of you need to come back from wherever you are ... and pay attention to what we are going to do next now that you are charged with more FirePower than you ever imagined. You need to be within the local Earth Energies.

For this practice, and on my command and NOT before, you will use your **Super Sense** to discern the Sun!

Again, for this practice, and on my command and NOT before, you will use your **Super Sense** to discern the Sun! You will not project. You will keep your **Super Sense** inside yourself as always. It is not designed for Spiritual Excursions and to attempt to use it as such will damage it beyond repair! Your **Super Sense** is designed and empowered to tell you WHAT energies are emanating and WHERE they are emanating from. With a bit of practice you will be able to instantly KNOW the strength of those energies, their purpose and intent, and whether they are natural or intelligently directed. That you can select anything in Creation from a chunk of space dirt to a Galaxy Formation, is one of its greatest advantages. This time we're only going to make it read the Sun. Nothing more.

If everybody is ready:

Akurians, on my command:

Using only your **Super Sense**, discern the Sun. It's all-but unimaginably huge. From the center it's some 400,000 miles in all directions of super-hot radio-active combustion with an instant kill range of five to ten million miles from the surface. Note, it has explosions happening all over the interior. Some are minor boiling points the size of a necklace bead and smaller, to the size of the moon, others the size of the earth and larger. The Sun fuses about 650 million metric tons of hydrogen into helium per second; and because its plasma – fluid – it rotates at different speeds between its poles at about 34.something days and its equator at 25.something days. And THAT is part of the source of all that churning you're detecting.

Discern, there is a lot of space dust falling into the heat-kill area of the Sun, estimated to be in the vicinity of at least 80,000,000 tons per 24 hour period, virtually all of it being melted and vaporized into energy long before it is sucked into the surface. The Earth gets about 100 tons per day. Here is an anomaly worth paying attention to: the Sun has a tremendous magnetic/gravity field that attracts space debris, and yet it spews energy and hot-matter – most of it in the form of light – outwards beyond its own capability to recapture. It's one great piece of scientific engineering.

The next time you send a Body of Light into it, or make a Body of Fire out of it, think about that and the enormous amount of Spiritual Energy and Matter – now called Dark Energy and Dark Matter – you really have at your disposal. And, when you take the ash residue we call Black Fire, you'll have a much better understanding of why we often take as little as we can manage.

Some things about the Sun you need to detect with your **Super Sense**. Some, not all, of that churning is tearing matter apart right down at its energy levels – creating all that massive radio-activity – that we use in our Invocations and make our Links out of. A Sun-Link using a properly

made Body of Light or Body of Fire is harmless to the properly-minded creator, you an Akurian, but can be made to feed energy, or trail fire, radio-activity and literal hell-itself when properly directed and bound by Spiritual Powers and Authorities vested in us, the Akurians. And a point to KNOW for all Akurians, all that HEAT is as available as all the other detriments and nondetriments the Sun has to offer. It only must be applied properly.

WARNING! STUDY the Sun with your **Super Sense**, and USE the Sun with Bodies of Light, Bodies of Fire, Black Fire and/or direct command.

ARE THERE ANY QUESTIONS?

The entire North American continent is in severe drought, most of it either caused or enhanced by HAARP! We, the Akurians can overpower all the HAARP installations operating at the same time. Here's how, and I don't want anybody to act until everybody knows the drill and we're all acting as a Team.

Use your **Super Sense** to read the incoming energies of the United States and note the weather. Much drier than normal and with abnormal amounts of electricity in the atmosphere. This is by design – dry the country out, limit the growth of all crops, and start as many fires as possible via "dry" or "heat" lightning. A HAARP masterpiece.

Enter the Akurians!

First, we're going to make a simple Body of Light. Stand it out in any clear area, extend the arms full length, palms up. Then we're going to spin it – counter clockwise – and call for RAIN from the Canadian Border to the Mexican Border moving from the Pacific Ocean on the west to the Atlantic Ocean on the east. We're going to use just one word, "RAIN!" We're calling for RAIN not total destruction!

Remember: *The more simple the Invocation the more exacting the procedure.*

Akurians, on my command:

Akurians, make a Body of Light. Send it into the Sun, charge it with all Sun Energies and as much Black Fire as you can manage, return it to your own area and stand it in any clear area. Extend the arms outward, full length without exaggeration and the palms fingers up facing flat out. Now begin a SLOW counter clockwise spin – your left arm moving backwards as your right arm moves forward – and call and create all the "RAIN" you can imagine. Do not concern yourself with either wind, lightning or flood.

Akurians, spin. Akurians, call "RAIN!"

Spin until you feel the energies jell.
Let me know when you are finished.

ARE THERE ANY QUESTIONS?

Again, we're going to raise Royal Hell in places that aren't nearly hot enough, and rack some demonic bastards beyond their capability to ever comprehend. This is a similar – but updated – Invocation. Pay close attention and do not deviate.
