

REFRESHER
BELLY BALLS, BODIES OF LIGHT
HAARP, HURRICANE SANDY, FUKUSHIMA
28 October 2012 – 12 Cheshvan 5773

<http://earthquake.usgs.gov/earthquakes/map/>

http://www.myfoxxhurricane.com/custom/storms/storm1_enhanced_satellite.html

Akurians, we have THREE major concerns to handle in this Instructional: Hurricane Sandy in the Atlantic; Fukushima nuclear disaster in Japan and an unparalleled Earthquake Swarm just south of Alaska. Each intended to be a diversion from the other to ensure Obastard gets re-elected regardless of the cost. This is going to be a very rough session, and for those of you who aren't up to speed yet, just hang on and listen, learn what you can while you can. This Instructional will be emailed as per the norm, except it has a lot of information that won't be spoken due to ENERGY and TIME constraints.

Right out of last night's BLAST ... we had a slight boo-boo. We were taking Hurricane Sandy apart and someone, perhaps the same someone, used a Sun Link and a BODY OF FIRE! No, no, no, no, no, children: **NEVER PUT ANY KIND OF HEAT INTO A STORM YOU INTEND TO GET RID OF!** Rain and Storms are results of HEAT and this one damned sure doesn't need any more. If we're MAKING a storm, such as a rain-fall, we want all the HEAT we can get – but NEVER in any storm we're trying to reduce or dispose of.

We still got in our licks ... but not as much as we should have. THAT is why it is absolutely critical that everyone do EXACTLY as instructed – no adding to nor subtracting from – **no deviations whatsoever** – under any conditions. If I don't put something in the menu, it's because the thing is a problem and NOT a solution to whatever we're in to at the time. A few years ago I was doing a training session with Command Marshal Budagher, General Meinke and then-Colonel Perks. We were putting a hammer into Kommrade Hillary Clinton, and instead of doing exactly what I instructed, Colonel Perks went off on her own agenda. You can see the results yet today. Instead of being a disposed-of outcast, Kommrade Hillary Clinton is the United State's Secretary of State – five offices down from the President! THAT disaster just cost the lives of FOUR Americans in Libya – and untold others in the past several years. We do NOT need to exterminate our own people, especially by being stupid.

First and foremost, we as Akurians must again define **WHO** the Akurians are, **WHAT** we do as Akurians, **WHY** we do it, and by **WHAT** authority! Let's take them in that order:

WHO? The Akurians are this age's sole and exclusive people with direct and infallible access to The Most High because each of us CHOSE to be a part of that people of our own mind. Akurians DO NOT side-walk arm-grab, evangelize door-to-door nor on the streets, robo-phone or solicit our Doctrine – which is Holy Law across the board – by any nefarious means. All other so-called 'religions' do all of that, or convert-by-the-sword, all of which are in violation of Holy Law from start to finish. The Most High does not convert-by-threat-of-murder nor does He permit any of His True Servants to violate His Holy Law against such abominations. To be a True and Righteous Akurian one MUST know and abide by Holy Law and not any other so-called 'doctrine' reputedly gleaned therefrom.

WHAT? In absolute obedience to Holy Law we are both a Testimony OF this Generation of Fire and a living example to all those living in it. We do NOT evangelize, but that does NOT mean we don't provide access to our information and way of life to any inquiring mind. Holy Law is the sole and exclusive order of conduct in any and all situations. It is the general basis of knowing and understanding right, correct and Righteous without being an infinitely detailed mass

of incomprehensible gibberish that only a self-appointed few can represent or administer. Any prudent mind having experienced a stubbed toe doesn't need an 'administrator' to inform them that a hammer can do the same damage when applied accidentally or purposefully to a finger in like manner. It's called common sense. Those in search of Truth, Spiritual or otherwise, are bound by the same application of TESTING information to prove it 'belief' or Knowledge, and the Akurian's responsibility ends at informing upon opportunity – nothing more. Inform them we will, force them we won't; an be a Testimony OF them in either instance.

WHY? As living humans in this Age of Damnation, we have no other True and Righteous alternative but to either endure the Damnations as the Secret Manipulators and governments dictate OR call them into account as the Living Testimony we are! Being a silent Testimony is an option and will stand as Righteous in Judgment, but it often comes with a price: lost souls having no other alternative due to ignorance. Raising the Public Specter reveals possible alternatives to the otherwise ignorant or misinformed, shifting responsibility to those who either ignore, do nothing, or join the fray. We present the TRUTH in spite of its unpopularity (1) because it is required of us to be Living Testimonies, and (2) to then and there shift responsibility for Eternal Consequences from ourselves to any and all others within range of our Public Specter!

WHAT AUTHORITY? For those who are Proven Knowers, that question borders on ludicrous as the sole and exclusive answer is: The Most High, Himself! However, for those who are not yet Proven Knowers of The Great Testimony, most of whom are still programmed into the 'belief in Jesus is knowledge of god' BLASPHEMY, that answer is NOT so clear. Even my own fully-documented track record is insufficient evidence until they have time and resources to verify it for themselves. And THAT is why I always take responsibility for those newbies when we Train, BLAST, teach, or in any manner Spiritually involve themselves. The Most High has seen fit to appoint me to Holy Office and the responsibilities include revealing the TRUTH about virtually everything from Holy Law, global and local politics to science with their many revelations and deceptions. Of the 175 Anointed in their respective generations that often include the generations of their Disciples after them – The Most High sent each with a specific and different Proof of their Authority that prevailed in the presence of multitudes, kings and priests of all other persuasions. Mine is the absolute best of all other 174 (Elijah served twice, as himself and John, the Baptist): The Great Testimony of **The Most High, Himself**, to any and all – without exception – that will perform the process correctly!

Permit a bit of verification with respect to the Proof of the Anointed carrying on with the Disciples, living or dead. There are several accounts of Simon bar Jonah aka Peter, the Rock, doing both healings and condemnations – Ananias and his wife Sapphira – just as Immanuel did and clearly took no credit for any of it upon himself; but always in Testimony of The Most High and verification that Immanuel and John, the Baptist, were the Anointed just prior. Immanuel NEVER gave credit to any prophecy or miracle to anybody but The Most High; nor did John, the Baptist. All three were Anointed in – and of – their respective generations, John, the Baptist, serving the longest, literally from the time he was weaned.

John, the Baptist, had an irrevocable Proof unlike any other before or since. He would baptize a person and instantly they would be Spiritually adept: Clairvoyant and Clairaudient. He would admonish for disobedience of Holy Law, and those who STOPPED such nonsense would regain their health, healing of a child, whatever. He was NOT considered a miracle worker but a real thorn in the behinds of both the corrupt Priesthood and equally damnable Rulers of the Land under Rome. He raked Jewish rabbis and priests because Holy Law determined that only pure-bred Levite males could wear that mantle. He was always on their back because they would not show the Ark of the Covenant in the Holy of Holies – because it wasn't there to begin with – but it had teleportation capability. If the Levite Priesthood were so true and righteous, **WHY** couldn't they petition The Most High to return the Ark to the Temple? John, the Baptist **KNEW** their lies and hypocrisies and called them on it every day as sure as daylight. Without ever leaving what is now

Israel (Judea) he was a global pain to Rome because travelers met him, talked to him, watched him and carried the information all over the Roman Empire. Needless to say, he was damned unpopular with all the high and mighties from Rome all the way down.

It's a little hard to distinguish the Proof of Simon Peter from the miracles of Immanuel, except Immanuel never pronounced immediate death upon anybody, even Judas who betrayed him. Simon Peter *did*, because Ananias and Sapphira withheld money they had promised to the service and lied about it to Simon Peter, he sent them to immediate death even though he didn't lift a finger in violence against them. The deaths of Ananias and Sapphira did as much to deliver the gospel – good news – that mankind was no longer under a Spiritual Death Penalty because of Ish and Isha's disobedience; as THAT was the job and duty of Simon Peter and each and every Anointed since Immanuel who paid the price for it.

By returning the world to Holy Law and The Most High, Akurians fulfill our Righteous obligations in exactly the same manner. That even the newest among us are endowed with telekinesis – creating, moving and dissolving storms being the most prominent – is but one True Evidence of **WHO** we are, **WHAT** we do, **WHY** we do it, and by **WHAT** authority! There isn't one reputable book of science on the subject that doesn't claim telekinesis to be impossible. NONE! Not one scientific publication even suggests it might be possible. There isn't one so-called 'miracle worker of the lord' nor any priest, preacher, deacon or 'believer' of any religion that can perform telekinesis at all – let alone with the impunity even the newest-taught Akurian can. That point alone SHOULD be sufficient evidence of our True Righteousness and Holy Authority in The Sight of The Most High. But the Proof itself far surpasses even telekinesis for worth and value to each and every Akurian who has it.

Now, we are about to use all that FirePower ... again ...

ARE THERE ANY QUESTIONS?

To the practices we learned last week:

And THAT brings us to **BODIES OF LIGHT** and **DISCERNMENT**.

BODIES OF LIGHT can be transformed into all manner of True Spiritual entities from general protectives, to snoopers, Sun Link anchors to **IMMORTAL GOLEMI**; can be any size or shape required; and there's only ONE place they can't go: **BEYOND THE VEIL OF THE MOST HIGH!** They simply dissolve upon attempt to access. They are as easily expended without penalty when their use has expired.

The easiest and safest way to **DISCERN** anything, human or otherwise, is with a **BODY OF LIGHT**. Properly **DISCERNED** when on any given mission, they are infallible sources of information; any failures being YOUR ability to read, and NOT the inabilities of your **BODY OF LIGHT** to detect and report. They cannot make up or create situations on their own, they are infinitely obedient and can only do as they are instructed. However, as yet, most of those in these Instructionals cannot fully send a **BODY OF LIGHT** much of anywhere except the Sun without attaching some due part of their own Spirit! And THAT is why I directly ordered everybody to leave Fukushima alone! None of you are skilled enough to handle that area in good safety.

Part of the problem being the very limited frequencies of radiation spilling from the structure. It's not a mass of energies, that help to reduce the effects of others, as in the Sun; it's a narrow and very high volume of very few – probably not more than three to five – highly radio-active energies that extend into the lower Planes and upper Depths.

The THREE major isotopes are Caesium-137 and 134, that once ingested, can remain in the body for THIRTY YEARS; and Iodine-131. With a half-life of only eight days, Iodine-131 from Chernobyl is still causing thyroid cancer at an undiminished rate across Ukraine, Belarus and Russia and that blow was on 26th of April 1986 – TWENTY SIX YEARS ago! Think about that:

a half-life of EIGHT DAYS still infects and kills without let-up a quarter century later. Do the math and see how long a THIRTY YEAR contamination with a half-life of just over THIRTY YEARS is going to remain destructive: it's over TWO MILLION ONE HUNDRED SIXTY THOUSAND YEARS (2,160,000+) YEARS! By comparison, Iodine-131 still killing a quarter of a century later is a god-send.

Make the mistake of projecting yourself into that kind of fury and the death you will die will be of damned foolishness and upon your own head!

I hope the point of very narrow frequencies is getting through; as the Sun is quite a different monster the way we deal with it. We know the Earth is protected from the Sun by an atmospheric layer, and we can venture there in a Spirit Manifestation such as a **BODY OF LIGHT** in relative safety. The fact the Sun emits x-rays, ultraviolet, visible light, infrared, radio and all manner of such energies and forces is it's saving grace when approached with a proper **BODY OF LIGHT**.

The Sun emits X-rays, ultraviolet, visible light, infrared and even radio waves. Ultraviolet radiation can cause sunburn or changes in human skin pigmentation commonly known as a tan. The mass of frequencies – easier to express in wavelength – is our shield and protection, a range of 100 nano-meter to about 1 millimeter, or five regions of wavelengths. Ultraviolet C (UVC) 100 to 280 nano-meter (invisible to the human eye) used in germicidal lamps. Ultraviolet B (UVB) 280 to 315 nano-meter, responsible for photochemical reaction leading to production of the ozone layer. Ultraviolet A (UVA) 315 to 400 nano-meter, used in tanning and PUVA therapy for psoriasis. The visible range 380 to 780 nano-meter, visible to the naked eye. And Infrared 700 nano-meter to 106 nano-meter (1 millimeter), also divided into three types on the basis of wavelength: Infrared-A: 700 nano-meter to 1,400 nano-meter; Infrared-B: 1,400 nano-meter to 3,000 nano-meter; and Infrared-C: 3,000 nano-meter to 1 millimeter. What scientists don't tell – or don't know – the Sun exists in the sea of frequencies that encompass all the Depths of Hell down to absolute zero frequency.

THAT is why we can run the Sun with near immunity and **WHY** we need to stay the hell out of and away from Fukushima, Chernobyl and all other interiors of Nuclear Plants, Engines and Reactors.

Next, overnight we suffered a HAARP-Generated Earthquake Swarm. As of the time we put this together, of 67 Earthquakes above 2.5 Magnitude – 58 were United States or Canada – 51 in Canada just south of Alaska in the Pacific; most – 50 – in the Masset region – between Washington and Alaska.

FIFTY quakes in one string within about SIXTEEN hours? All above 4 and NINE at 5 or above on the Richter Scale? We do NOT need any more evidence this is a HAARP-Generated DISTRACTION for whatever the OWG reason. NOTHING like this has ever happened in history. It's too far south to be a warning of an impending Earth-Axis shift by natural means. I wouldn't put anything past the Anunnaki, their Nefilim breeds; nor any of the other ExtraTerrestrials that currently contaminate this planet. Another of quake of interest is:

3.2 34km S of Tanaga Volcano, Alaska 2012-10-28 06:15:14 51.577°N 178.082°W 4.6

Tanaga Volcano? Expect more out of Alaska

They obviously want our attention: we're going to be sure to give it to them: **BUT ON OUR TERMS AND WITHOUT ANY DIVERSIONS!**

<http://earthquake.usgs.gov/earthquakes/map/>

Just remember, Fukushima was HAARP-Generated!

ARE THERE ANY QUESTIONS?

Again: **BODIES OF LIGHT** are indestructible against any attack; and there isn't any barrier THIS SIDE of The Great Veil they can't penetrate with impunity. Preparing yourself is the hardest part of making a **BODY OF LIGHT**. Set a standard, and the HIGHER the better, and each subsequent **BODY OF LIGHT** will have the same capabilities as those previous. Keep your initial shopping list as simple as possible. You can only be as extensive and detailed as you can be *cognizant of* at any given time.

Your First mindset: make **BODY OF LIGHT** to be YOUR creation and to obey only YOU without exception. No other 'entities' and no other agenda.

Part the Second: make your **BODY OF LIGHT** to operate in any and all frequencies; from the Highest Heavens to the Deepest Depths – from the unimaginable to absolute zero. The HIGHER frequencies appear to be WHITE, and the higher the whiter. Start with the WHITEST and BRIGHTEST you can imagine and get WHITER and BRIGHTER as you gain experience.

Third, make your **BODY OF LIGHT** to be able to see, hear, taste, touch and smell just you can, only with far more capability. This is where VIRTUE becomes beyond price for those who develop it. Making your VIRTUE a part of your **BODY OF LIGHT** will prove to be a God-Send as your **BODY OF LIGHT** will NOT have anything you don't create within it.

Fourth, you want your **BODY OF LIGHT** to be a consistent shape because YOU need a consistent mental process. If you can't keep the SHAPE consistent, you damned sure can't keep the ENDOWMENTS consistent either. The simple process Akurians use is to make our **BODIES OF LIGHT** within ourselves; and then move it to wherever we want it to go. Your physical body isn't going to change much from day-to-day, so your **BODY OF LIGHT** will be about as consistent as you can make it.

Akurians, prepare: to make TWO proper **BODIES OF LIGHT**:
BODIES OF LIGHT made as per this Instructional are always created in the Heavenly Plane of Hathor UNLESS deliberately created somewhere else.

On my command and NOT before, simply visualize a **BODY OF WHITE LIGHT** formed out of the Energies of Creation. It's that quick and that simple. IF – REPEAT: IF you do your initial preparation prior to actually making a **BODY OF LIGHT** you will succeed every time.

Let's go through the MIND-SET preparations one more time:

First, make your **BODY OF LIGHT** to be YOUR creation, free and clear of all other contaminations whatsoever.

Second, make your **BODY OF LIGHT** to operate in any and all frequencies; from the Highest Heavens to the Deepest Depths.

Third, make your **BODY OF LIGHT** to be able to see, hear, taste, touch and smell just like your physical body, only with far more capability because it is filled with your own VIRTUE.

Fourth, make your **BODY OF LIGHT** to be a consistent shape. In this case your own physical body. Your physical body will be your Spiritual Creation workshop from now on. It's the absolute best place in Creation to make a viable **BODY OF LIGHT**.

Taking longer to PREPARE than to create is true of everything else we do in True Spiritual practice.

We're going to make TWO **BODIES OF LIGHT**.

Akurians, on my command:

Visualize your physical body exactly as it is right now, the same size and shape of your physical body.

Fill your physical body with the WHITEST and BRIGHTEST LIGHT you can imagine. Your **BODY OF LIGHT** will instantly gel and remain of its own accord.

Move this first **BODY OF LIGHT** a few feet from you.

REPEAT THE PROCESS AND MAKE A SECOND BODY OF LIGHT!

Akurians, on my command:

Visualize your physical body exactly as it is right now, the same size and shape of your physical body.

Fill your physical body with the **WHITEST** and **BRIGHTEST LIGHT** you can imagine. Your **BODY OF LIGHT** will instantly gel and remain of its own accord.

Move this second **BODY OF LIGHT** a few feet from you **NEAR** but not in the same place as the first **BODY OF LIGHT**.

ARE THERE ANY QUESTIONS?

Now you're going to need **BELLY BALLS**.

Let's walk through the process. **DO NOT** make any changes or do anything until I instruct you to do so. You need to know and understand **WHAT** we are going to do and then do it **AS A TEAM** to get the most FirePower.

Making a proper **BELLY BALL** is extremely simple, both arms bent forward at the elbows, extending hands, palms facing toward each other, a few inches apart, no more than one foot, in front of the Solar Plexus; both hands open with palms facing toward each other. When you feel a slight warmth in both palms, form that life energy into a **BELLY BALL**, the general rule is about the size of a basketball, be careful **NOT** to disconnect it from yourself until instructed to do so. Leave your **BELLY BALL** attached to your Solar Plexus. You're going to use it in a few minutes. Put down your phones if necessary.

Akurians, On my command: **MAKE YOUR FIRST BELLY BALL!**

Take full cognizance of your first **BODY OF LIGHT** ... now take your **BELLY BALL** and disconnect it from your Solar Plexus. Send this **BELLY BALL** into your first **BODY OF LIGHT** and fuse them into ONE Spiritual Entity!

Akurians, On my command: **MAKE YOUR SECOND BELLY BALL!**

Take full cognizance of your second **BODY OF LIGHT** ... now take your **BELLY BALL** and disconnect it from your Solar Plexus. Send this **BELLY BALL** into your second **BODY OF LIGHT** and fuse them into ONE Spiritual Entity!

These **BELLY BALL/BODIES OF LIGHT** will only last about three weeks at most before they begin to deteriorate in the natural order.

Don't use any **BELLY BALL/BODY OF LIGHT** in ANY test, recharge or application with your **FULL BODY SUPER SENSE** as they tend to contaminate rather than enhance. In time and sufficient development you'll be able to use either, or both, as you deem necessary; but that is **THEN** and not now!

Since these **BODIES OF LIGHT** are easy to make and are equally **EXPENDABLE**, we're going to use these particular units to do a bit of continuing weather control. The Nation is still in a **HAARP-controlled drought** – and in concert with Monsanto's genetically-modified seed – food production is far below requirements.

Some of us are already too-wet *and going to get wetter* as we stack as much snow in the higher elevations for the water we're going to need for both the winter-plant crops, like wheat, and

replenishing ground water supplies. An excellent set of situations for Akurians to hammer the hell out of!

On my command *and NOT before*, **AS A TEAM**: we're going to do a bit of **BODY OF LIGHT** weather-changing that HAARP can't do a damned thing about in the short term. First, take full cognizance of all endowed factors in your **BELLY BALL/BODY OF LIGHT** combination. Everything, sight, sound, touch, taste and smell; and get ready to **DISCERN** the actual weather and ground conditions in your assigned area. You just need the immediate information and test.

We have a HAARP-Controlled Atlantic Storm, SANDY, that still needs our immediate attention as much for political reasons as the water! If you've been keeping up on the news – nothing from the Lying Stream Media – the Obamites have been transporting Blacks and Hispanics from every ghetto in the northern swing states with free food and entertainment AFTER they vote early! The coastal areas, including Virginia, Washington, D.C., New York, Philadelphia and New England in general, are being given the same free-chow-free-music AFTER THE VOTE treatment. Now that those votes have been cast, the bastards want HAARP to storm the hell out of those INLAND states of Ohio, Kentucky, Tennessee, West Virginia and Maryland and as much of Virginia, New York, New Jersey, Delaware, Pennsylvania and the New England Seaboard to REDUCE the vote by all others due to 'bad weather' ... and so-far they're getting away with it. Properly HAARPED, a winter-freeze is scheduled to come down the Northern Pipeline and reduce most of the Election Day voting in Wisconsin, Minnesota, Michigan, Illinois and Indiana.

In addition to the coastal areas, their BATTLE PLAN is to drag the storm out as LONG as possible; as far IN LAND as possible; rain, fallen trees, sleet and snow disrupting highways and town traffic; as most people who *can* will not venture out in bad weather even to vote! The bastards know this, and THAT is their game.

ENTER THE AKURIANS!

We've managed to move the Eye of Sandy a couple hundred miles EASTWARD out into the Atlantic ... the eight Djeds the Anunnaki were using in their command and control of the storm that I totaled Thursday morning have been replaced. HAARP didn't create this storm, they simply assist and support the command and control via the Anunnaki emplaced Djeds! We are going to reduce this damnable situation to the least common denominator.

Think about it. The bastards will UNDO a lot of their own HAARP-Generated drought in order to win this election, November 6th. We need that water, but we DO NOT need a Hurricane disaster on our Akurians in Virginia, New York and Delaware to go with it. We might not be able to totally eliminate some wind and rain they don't need either, but we're damned sure going to try.

We're going to hit with a series of impacts, using a series of **TEAMS!**

Here's the immediate plan for Sandy:

HAARP intends to move the storm northward, virtually along the normal Atlantic Storm path until it reaches the North Carolina/Virginia state lines. THEN they intend an almost NINETY DEGREE west turn that will strike anywhere from south of Washington, D.C. to New Jersey/Delaware with New York City somewhere in the center. According to their current projections, Sandy is to blow herself out over Lake Erie in the west or over Maine in the east sometime Friday. Because HAARP is temporarily out of the direct-influence picture, we the Akurians are going to jackass all their plans and effect things a lot more into our favor.

REMEMBER: For this part of the campaign DO NOT use either Sun Links or **BODIES OF FIRE** anywhere in the application.

On my command, when I issue the order, we are going to do a slam-bang on the storm and all the weather conditions ahead of, to the sides and behind it. We're going to work in FOUR major Strike **TEAMS**: When I assign the Akurians to a **TEAM** they are ordered to do ONLY what that **TEAM** is assigned to do. *Nothing else.*

TEAM ONE will have the hardest duty because they will have the highest-energy requirements. Their job has to be done RIGHT the first time or we're going to have another Isaac jackass that cannot be undone due to the time restraints. **TEAM ONE** is going to unwind Sandy, putting a total stop to the current counter-clockwise spin by spinning the entire storm in a clockwise direction. Generals Clark, Headrick and Malone are **TEAM ONE**. Generals Clark and Headrick were the unwind team that took apart Hurricane Earl back in 2010, and it was a Cat-4 on the verge of being declared a Cat-5. We hit it, they delayed the news-update, and 48 hours later it was a fresh rain storm out in the Atlantic.

TEAM TWO is equally as critical and requires (if we have them) four Presences at specific stations – One at due north, one due south, one due west and one due east making a square. **TEAM TWO** is to remove ALL the HEAT energy in that storm, *all of it*. Sandy is about 12-15 miles high, about 225 miles wide, about 40,000 square miles or about 540,000 cubic miles. **TEAM TWO** will move all the HEAT to Omaha, Nebraska, and let it spread as it will. Marshal General D. Chylon Budagher, Colonel Davis, Major Ernie Martin are **TEAM TWO**. General Budagher on the due north point, Colonel Davis on the west toward the coast, Major Ernie Martin on the east in the Atlantic. Here is a specific for **TEAM TWO**: General Budagher is ordered to make a specific **BODY OF LIGHT** out of the energies of the Storm and station it on the due south as a buffer. DO NOT interfere with her doing that – which includes trying to help! General Budagher needs everybody to do THEIR job – and only their job – as this specific isn't anything new; she's done these kinds of things before.

TEAM THREE has the largest area to cover, the entire North Atlantic beyond the storm range of Sandy. Brigadier Siler will lead the charge to **TAKE ALL THE ENERGIES OF WHATSOEVER KIND** – including pressure – out of the water and atmosphere to FIFTEEN MILES HIGH – and deposit it, ALL OF IT – on Omaha, Nebraska. This will accomplish THREE things: (1) sufficient rainfall for the remainder of the unharvested crops and livestock; (2) stockpiles of water for the winter wheat that we cannot do without; and (3) dispose of that Tempest Storm the bastards are trying to merge with Sandy. **TEAM THREE** is General Siler, General Schipul and Major Koko.

TEAM FOUR is the rest of us, Command General Shams-Avari being **TEAM ANCHOR** over Pittsburgh, PA, around whom the rest of us will create a Great Circle THREE HUNDRED AND FIFTY MILES out, SEVEN HUNDRED MILES in diameter. That will cover an area well into Lake Huron in Canada on the north, Indianapolis, Indiana, on the west, New York City on the east and Charlotte, North Carolina on the south. **TEAM FOUR** outer perimeter General Meinke, Colonel Riggs, Weldon Brinson, Doreen McCaul and all guests who can – will move all winds, energies, powers and forces in a clockwise motion, center point anchored on General Shams-Avari at Pittsburgh.

You do NOT need to expand your **BELLY BALL/BODY OF LIGHT** beyond your **TEAM** assignment area.

We are going to disrupt all HAARP's intentions without exception; and we're going to hit these targets TWICE – on my command with your assigned **TEAM**.

ARE THERE ANY QUESTIONS? DO I NEED TO RUN THIS AGAIN?

It's not a problem, we just have to do it right the first time.

Akurians, on my command:

Akurians put the first of your **BELLY BALL/BODIES OF LIGHT** combination on your assigned station.

Akurians, link up with your respective **TEAM** and move to your assigned station.

Akurians, expand your **BELLY BALL/BODY OF LIGHT** to fill and **DISCERN** your assigned areas.

Akurians, **BIND** all the weather and atmospherics to your **BELLY BALL/BODY OF LIGHT** and merge them into one energy!

Akurian **TEAM ONE**: begin your clockwise motion of Storm Sandy.

Akurian **TEAM TWO**: remove all HEAT, energies and forces from Storm Sandy.

Akurian **TEAM THREE**: remove all HEAT, energies and forces from the North Atlantic.

Akurian **TEAM FOUR**: link with General Shams-Avari at Pittsburgh, move to the outer perimeter, fill and **DISCERN** your assigned area, **BIND** all the weather and atmospherics to your **BELLY BALL/BODY OF LIGHT** and merge them into one energy. Begin clockwise rotation over the entire SEVEN HUNDRED MILE DIAMETER area.

This will take not less than FIVE MINUTES to complete the first attempt. I will **BLOCK** and disrupt all Djed communications.

Disconnect from your **BELLY BALL/BODY OF LIGHT** when you feel the energies gel and let me know when you are finished.

Make yourself a new Sun Link and recharge yourself as you think necessary.

Akurians, on my command:

Akurians put the second of your **BELLY BALL/BODIES OF LIGHT** combination on your assigned station.

Akurians, link up with your respective **TEAM** and move to your assigned station.

Akurians, expand your **BELLY BALL/BODY OF LIGHT** to fill and **DISCERN** your assigned areas.

Akurians, **BIND** all the weather and atmospherics to your **BELLY BALL/BODY OF LIGHT** and merge them into one energy!

Akurian **TEAM ONE**: begin your clockwise motion of Storm Sandy.

Akurian **TEAM TWO**: remove all HEAT, energies and forces from Storm Sandy..

Akurian **TEAM THREE**: remove all HEAT, energies and forces from the North Atlantic.

Akurian **TEAM FOUR**: link with General Shams-Avari at Pittsburgh, move to the outer perimeter, fill and **DISCERN** your assigned area, **BIND** all the weather and atmospherics to your **BELLY BALL/BODY OF LIGHT** and merge them into one energy. Begin clockwise rotation over the entire SEVEN HUNDRED MILE DIAMETER area.

This will take a few minutes to complete and, again, I will **BLOCK** and disrupt all Djed communications.

Disconnect from your **BELLY BALL/BODY OF LIGHT** when you feel the energies gel and let me know when you are finished.

Make yourself a new Sun Link and recharge yourself as you think necessary.

ARE THERE ANY QUESTIONS?

From this point, do not interrupt. If you even suspect you're in over your head, **STOP** and return to your physical body and listen to the remainder of this Instructional as training.

Clear all other considerations from yourself; do exactly **WHAT** I tell you, **WHEN** I tell you without any deviations or interruptions whatsoever: you are going to make an **IMMORTAL**

GOLEM OF DANAKA! Remember, any **GOLEMI** is permanently attached to its Creator – *in this case YOU* – for as long as it exists; and a properly created **GOLEMI** can travel faster than the speed of light without moving backward in time: just like your thoughts from which it was Created. Unlike **GOLEMI OF DEROS**, they do not need a Sun Link of any kind. Sun Links restrict these types of **GOLEMI** ... *always remember that.*

Locate and **DISCERN** your assigned HAARP Installations. Note they are not the same, the rotation eventually giving each of you the chance to **DISCERN** all the Installations and to continue the destructions inflicted by the previous Akurian.

HAARP Assignments:

Command Marshal Budagher = HAARP Area 51 – Nevada;
Command Marshal Shams-Avari = HAARP Long Island – New York;
Supreme General Schipul = HAARP Puerto Rico;
Staff General Clark = HAARP Gakona – Alaska;
Brigadier Meinke = HAARP Peru;
Brigadier Malone = HAARP Brazil;
Brigadier Headrick = HAARP United Kingdom;
Brigadier Siler = HAARP Australia;
Colonel Riggs = HAARP Japan;
Colonel Davis = Eiscat HAARP Norway;
Major Martin = HAARP India;
Major Kilpatrick = HAARP Russia;
Weldon Brinson = Australia Defense Radar;
Doreen McCaul = HAARP China.

I will take =

Akurians, on my command:

Prepare to make another **BODY OF LIGHT** and CHARGE and ENERGIZE it.

CLEAN your hands;

CLEAN your feet;

CLEAN and ENERGIZE your head;

*Make a new **BODY OF LIGHT** inside your physical body;*

Make a disc of **WHITE SPIRITUAL LIGHT**, CHARGE and ENERGIZE it with **AKASHA, AIR, FIRE, WATER** and **EARTH** of your own energies;

Move your CHARGED and ENERGIZED disc of **WHITE SPIRITUAL LIGHT** down through your **BODY OF LIGHT** and CHARGE to ENERGIZE yourself from head to toe. Take special notice of those points that LIGHT UP as you move the disc, and take a minute to **DISCERN** what that Energy Point is about: It's a signal of the STRENGTH of this given **BODY OF LIGHT** you are going to turn into an **IMMORTAL GOLEM OF DANAKA!**

This additional notice of the STRENGTH of this given **BODY OF LIGHT** will become critical in time as you will learn to make all points the same strength *because you are going to need it!*

Akurians, CLEAN and RESTRICT your **IMMORTAL GOLEM OF DANAKA** to your sole and exclusive possession and control; prohibiting it's ability to be attached to or otherwise invaded.

Akurians, CHARGE and ENERGIZE your **IMMORTAL GOLEM OF DANAKA** with every deadly force and energy found in the Sun but in this order and on my command:

Fly it to the Sun: **AKASHA, FISSION, FIRE, BLACK FIRE, WATER, FUSION, AIR, EARTH, MOON, DEATH, DESTRUCTION** ... and infuse as much Sun Forces into it as you can manage ... now **BIND** this **IMMORTAL GOLEM OF DANAKA** and all those energies to be manifest in **EARTH!**

Keep this **IMMORTAL GOLEM OF DANAKA** in the Sun where it's under your infinite control until I instruct you to move it. ***This IMMORTAL GOLEM OF DANAKA is different than anything you've encountered before, and must be handled accordingly!***

Now even before we name this Entity, here is a hard part: on my command, and not before, while you and it are **BOTH** still in the Sun, you are going to **SINK** this **IMMORTAL GOLEM OF DANAKA** into the **DEPTH OF DANAKA** and **WITHOUT** sinking yourself in the process! You're going to **SEND** your **IMMORTAL GOLEM OF DANAKA** into the **DEPTH OF DANAKA** – not **TAKE** it down – **REPEAT:** you're going to send it. It's not going to disappear if you do exactly **WHAT** I tell you **WHEN** I tell you and only **AS** I tell you.

This **IMMORTAL GOLEM OF DANAKA** is currently under your control and inside the Sun, **WITHOUT** moving it from the Sun, you're going to sink it down into the **DEPTH OF DANAKA.**

First, detach yourself from this **IMMORTAL GOLEM OF DANAKA.** It's a very hot Spirit Entity and under your complete control and guard and protect it from any other entity, spirit or otherwise.

Second, visualize this **IMMORTAL GOLEM OF DANAKA** turning solid black by depriving it of all Light – only **LIGHT *not everything in existence*** – and it will begin to darken into a shadow to a solid. Once it is as solid black as you can make it, **CHARGE IT WITH ALL THE FREQUENCIES, AGONIES AND ENERGIES OF DANAKA** and strengthen them with all the Forces, Energies and Powers of the Sun with as much Black Fire as you can muster. This **IMMORTAL GOLEM OF DANAKA** will remain in the Sun but also in the **DEPTH OF DANAKA!** And for the time being, **THAT** is exactly where you want it.

Unlike the **IMMORTAL GOLEM OF DEROS** we made for permanent aggravation and general disruption, this **IMMORTAL GOLEM OF DANAKA** *and all others from all lower Depths of Hell must be named!* Name your **GOLEM** while it is still under your immediate control, visualize the essence and energies of these five words: **AKURIAN HELL OF DANAKA-FOUR!** with an exclamation mark on the end. Fuse those energies and the words **AKURIAN HELL OF DANAKA-FOUR!** into your **IMMORTAL GOLEM OF DANAKA!**

Akurians, on my command:

Endow your **IMMORTAL GOLEM OF DANAKA** with Truth and Justice!

Endow your **IMMORTAL GOLEM OF DANAKA** to recognize any and all energies, forces and powers!

Endow your **IMMORTAL GOLEM OF DANAKA** with the strength and infinite energies, forces and powers of the Sun that it cannot be resisted or defeated!

Clean your **IMMORTAL GOLEM OF DANAKA** of any and all other entities, spirit or otherwise: **BURN THEM IF YOU FIND THEM!** You're operating in one of the most-deadly destructive sources in this part of Creation, the Sun, so don't be shy about using it to **CLEAN!**

Return your **IMMORTAL GOLEM OF DANAKA** to this earth and stand it a short distance from you!

Name it again - **AKURIAN HELL OF DANAKA-FOUR!** – in this earth!

In your thoughts, inform it to roam this planet wherever there is passage and living entities to slaughter, slay, denigrate, disrupt and destroy all Demonic, ExtraTerrestrials, HAARP Installations, facilities and personnel including all energy-connected Manipulators and systems!

Akurians, on my command:

Fly your **IMMORTAL GOLEM OF DANAKA** to your assigned HAARP installation and inform it of all the SUBTERRANEAN tunnels and chambers you just **DISCERNED**, and release it to be an avenging monster killing and destroying everything there. You have **DISCERNED** its TARGET BASE and this **IMMORTAL GOLEM OF DANAKA** has no other purpose or capability than infinite and perpetual slaughter and continuous destruction, minute by minute, hour by hour, day in and day out, from now until Shiloh.

A hotter Horror of Hell-Itself has arrived at HAARP!

Now issue your FINAL COMMAND to your **IMMORTAL GOLEM OF DANAKA** with these words:

"AKURIAN HELL OF DANAKA-FOUR! AKURIAN HELL OF DANAKA-FOUR! Slaughter and slay all enemies of your Creator, and spare them not! Go where I send you: into this HAARP Installation; into its farthest reaches, into its every nook and cranny! Immediately find and target all enemies of Akuria; if they know not Akuria they are also an enemy! Without any mercy or consideration of mercy whatsoever: slaughter, slay, denigrate, disrupt and destroy all Demonic, ExtraTerrestrials, facilities and personnel including all energy-connected Manipulators – as their own energies identify them – possess them, destroy them and spare them not!

"AKURIAN HELL OF DANAKA-FOUR! AKURIAN HELL OF DANAKA-FOUR! Go now, go where I send you: into this HAARP Installation and all the equipment and facilities thereof and chambers therein. Insert the full fury of the HEAT of the Sun into every part of every circuit and burn it into worthlessness. AKURIAN HELL OF DANAKA-FOUR remain here until you alone exist in this place."

Akurians, release your **IMMORTAL GOLEM OF DANAKA**;
Release yourself from the **IMMORTAL GOLEM OF DANAKA** and all its attached energies and prepare to recharge yourself.

It may take some of you a few minutes.

Recharge your **FULL BODY SUPER SENSE**.

Let me know when you are finished.

ARE THERE ANY QUESTIONS?
