**Akurians, pay attention!**

I don't want anybody jumping ahead or falling behind. First, you have to KNOW *what* we are going to do and *why*.

Two points that are iron clad and may NOT be violated: which requires each and every Akurian to **KNOW THE BATTLE PLAN AND OBEY IT!**

**(1)** Common household LYE used in opening drains, and once as a sure and certain disinfectant in laundry, is made by simply filtering water through WOOD ASHES! Evaporate the water and you get crystals, but the LYE-WATER will still burn the hell out of you. We can deliver all the HAIL we can muster on the WILDFIRES as the HAIL will put out the fires just as effectively as RAIN but WITHOUT the flood runoff that will put that freshly made LYE-WATER into the lakes, rivers and ground water sources.

**And:**

**(2)** Making rain in a jackass manner will produce HAIL sufficient to destroy any planted crop!

We cannot blast off incoherently unless we are hell bent on doing the OWG's job for them with our stupidity intact! Our process must be: **HAIL on the forest fires, RAIN on the fields. PERIOD!** That is the ideal. We need to make RAIN where we need it, from the Canadian Border to the Mexican Border, to save the crops! That is Priority One. If necessary, we'll let as much RAIN fall on those forest fires as will happen; and THEN rain it enough to dilute and wash the ash into a desirable level rather than a total destructive.

**To re-hash:**

The OWG Bastards are using HAARP to weather-control the devastation of virtually all farm produce! HAARP has created exceptional DROUGHT weather patterns and IGNITED fires all over the place. All part of the scam. The general scenario is **(1)** Forced planting of Monsanto genetically-modified seed **(a)** that prevents keeping seed because they will NOT grow; and **(b)** the harvest contains little more than bulk and is devoid of much life-sustaining nutrition. **(2)** Creating a weather situation that would prevent ANY crop from being worth harvesting. **(3)** And here's where it gets complicated OWG controlled HAARP generates forest and grass fires to do two things: **(a)** destroy as much woodlands, timber and wildlife as possible; and **(b)** ensure that any storm containing HAIL to put out the forest fires and prevent massive run-off of ash, would also destroy the farm crops.

Now that you know some *what* and *why*: Prepare to make War on OWG Bastards, starting with HAARP!

Akurians: **HERE IS THE BATTLE PLAN!** Do not act until ordered to do so!

Akurians, you will establish an anchor between your Living Body of Fire and the Sun to become an Eternal Link of Infinite Power. Then, with your Living Body of Fire attached to the Sun, you will pull that attached link and fly to your assigned HAARP Installation, attach and bind it to remain until you, alone remove it. **You will DISCERN the entire installation. You will BURN that HAARP Installation just like we have Moon Base Anu;** the exact same procedure but with as much fury as you can possibly manage. In spite of the fact we are expected, and the systems have been shut down temporarily, they cannot be shut down entirely like having a pilot light on a stove or leaving your computer on although it's off line.

DISCERN and encapsulate the entire HAARP Installation. You need not exceed beyond the perimeter fencing, but be sure to include it and everything inside it: all Guard Points and Warning Systems, cameras, motion detectors, capacitance ground planes which is nothing more than insulated wire, like ordinary fencing, buried in strips attached to electrical detectors everything.

You will **FLAME** anything and everything that is still working **whether ON or OFF**, any and all equipment regardless of nature, transmitters, receivers, analyzers, control systems; power systems, battery backup, heating, air conditioning, water, whatever you find: **YOU WILL FLAME IT!** You will overload it with Energies and Neutrinos to its complete meltdown. You will **FLAME** all those destructive energies and forces of the Sun and Black Fire to burn every system, destroy everything, just don't waste anything on the physical structures, if they burn, fine. **No exceptions.** Should you discern any entity whatsoever, **FLAME** them with Black Fire to Die the Death **IMMEDIATELY** and send them into Eternal Perdition. **No exceptions there either.** You can take a few minutes to NOT SPARE anything. You will destroy everything attached to, standing on, or alive anywhere in the place. Connect your Destructions to expand and include everybody involved. That TOTAL Destruction is to include any and all personnel, present or not, Manipulators, Politicians, Management, Staff, Personnel, Wives, Whores, Husbands, Studs, Partners and all Children.

This is a TOTAL Akurian house-cleaning. Wherever they are on the Planet they are to be destroyed from top to bottom, including friends and associates in support or sympathy and all their respective families and generations after them. **No exceptions and no escape!**

HAARP Assignments:

Command Marshal Budagher = HAARP China  
 Command Marshal Shams-Avari = HAARP United Kingdom  
 Supreme General Schipul = HAARP Area 51  
 Staff General Clark = HAARP Long Island  
 Brigadier Meinke = HAARP India  
 Brigadier Malone = Gakona, Alaska  
 Brigadier Siler = HAARP Peru  
 Colonel Davis = HAARP Brazil  
 Major Martin = Eiscat HAARP Norway  
 Major Kilpatrick = HAARP Japan  
 Doreen McCaul = HAARP Russia  
 = Australia HAARP  
 = Australia Defense Radar  
 = HAARP Puerto Rico

Akurians, using only your **Super Sense**, locate and discern the HAARP Installation of your assignment. They will have as much facilities and as many systems underground as will appear on the surface. Do not be deceived ... DISCERN your

assigned facility and prepare to destroy it and all its personnel.

Akurians, return to yourself if you have projected even in the slightest.

Akurians, on my command:

**Read the Sun with your Super Sense.** Just read it. It's extremely violent, dangerous, hot and deadly. It's in a constant state of explosion for want of a better term, actually doing both fission and fusion at the same time. Note it so it will be familiar when we get around to using it.

Now make a separate Body of Light and project it into the Sun! Expand your Body of Light to 800,000 miles in diameter in all directions. Attach all Powers, Energies and Forces of the Sun to your Body of Light and turn it into a Living Body of Fire. Fill that Living Body of Fire with all the Black Fire you can manage, giving yourself all its infinite power to Create and Destroy. Akurians, prepare to create multi-generational horror and to destroy HAARP and all its Management, Staff, Personnel and support from now until Shiloh!

Akurians, establish an anchor between your Living Body of Fire and the Sun to become an Eternal Link of Infinite Power.

Now, with your Living Body of Fire attached to the Sun, pull that attached link and fly to your assigned HAARP Installation.

DISCERN and encapsulate the entire HAARP Installation. You need not exceed beyond the perimeter fencing, but be sure to include it and all Guard Points and Warning Systems, cameras, motion detectors, capacitance ground planes, everything.

In spite of the fact we are expected, and some systems have been shut down temporarily, *they cannot be shut down entirely* like having a pilot light on a stove or leaving your computer on although it's off line. **FLAME** anything and everything that is still working whether it is shut-down or not, control systems; power systems, air conditioning, water, battery backup, whatever you find: **FLAME IT!** Overload it with Energies and Neutrinos to its complete meltdown. **FLAME** all those destructive energies and forces of the Sun and Black Fire to burn every system, destroy everything, just don't waste anything on the physical structures, if they burn, fine. *No exceptions.*

Should you discern any entity whatsoever, **FLAME** them with Black Fire to Die the Death IMMEDIATELY and send them into Eternal Perdition. No exceptions there either. You can take a few minutes to NOT SPARE anything. You will destroy everything attached to, standing on, or alive anywhere in the place. Connect your Destructions to expand and include everybody involved. That TOTAL Destruction is to include any and all personnel, present or not, Manipulators, Politicians, Management, Staff, Personnel, Wives, Whores, Husbands, Studs, Partners and all Children.

Attach and Bind the Sun Link to your respective HAARP Installation to keep feeding radioactive fire, death and destruction until you, alone, remove it; and THAT will be well after the documented and lived-up-to surrender of the Nefilim. You'll be able to read it with your **Super Sense**. Read it often and up the heat on

**anything you discern that isn't destroyed enough or might still be operating even a little.**

When you have finished, discerning the destructives having jelled, return to your physical body and let me know.

Colonel Davis found us this HAARP monitoring link:

<http://www.haarpstatus.com/haarpstatus/haarpmap.html>

and though it's only southern Canada, US, and northern Mexico, that's the area WE are most interested in; so bookmark it and check it every day. And there's another site you'll need to monitor:

[http://earthquake.usgs.gov/earthquakes/recenteqsww/Quakes/quakes\\_all.html](http://earthquake.usgs.gov/earthquakes/recenteqsww/Quakes/quakes_all.html)

to keep abreast of all the hell we're delivering to those far-away-places .... Anything in the 4.0 range is a real room shaker, and in close proximity can be dangerous to all concerned.

Get prepared for hell to pay on the earthquake and HAARP weather control fronts. Watch the news and check your own sources. Look for earthquakes, the sudden disappearance of water sources, lakes, et cetera, wilderness fires and strange 'accidents' and WHERE those disasters happen and upon WHAT and WHOM! Learn to connect the dots ... DISCERN everything, all the time. It's the best of all Spiritual Habits when it comes to KNOWING what to do, when to do it and where.
